JAPANESE LOSS IS 35,000 MEN

Entire Battalions Perish on Port Arthur's Slope in Four Days.

CZAR'S LOSS IS 10,000

More Than 5,000 Shells Have Been Fired Into Citadel Since Thursday.

CHAIR FORT IS CAPTURED

[SPECIAL CABLE TO THE GAZETTE.]
(Copyright, 1904, by New York Herald Co.)

LONDON, Aug. 24.—Considering that for a week past the English press dispatches, editorials and headlines have been boldly stating that Port Arthur's fall was at most a question of a few hours, there is a sensational change in the following dispatch from the Daily Express correspondent at Chefoo:

"Latest advices from Port Arthur indicate that, while the Japanese have captured several additional minor forts in the vicinity of Golden hill, there is no immediate prospect of taking the fortress by storm. The spirits of the garrison have been greatly raised through the practical failure of a three days' assault, and it is now believed that active operations by the Japanese are for the present at an end, and that the usual siege tactics are being resumed.

"There is still a fair supply of food in Port Arthur, and by putting troops on strict siege rations it is believed Gen. Stoessel can hold out at least until the beginning of winter. Russians realize the importance of delaying capitulation of the fortress as long as possible, inasmuch as the Japanese plan of campaign against Gen. Kuropatkin, which is now suspended, as a result of the Port Arthur assault, will be seriously affected thereby.

Whole Battalions Sacrificed.

"Preparations for winter quarters are already being made by the Japanese. Their losses before Port Arthur have been enormous. During the past four days entire battalions have been sacrificed in the attempt to hold new positions. Men have fought with almost fanatical bravery.

"The total Japanese losses before Port Arthur have exceeded 35,000 men. The Guards' division is said to have suffered the heaviest. The Russian casualties within Port Arthur have been at least 10,000. More than 5,000 shells, large and small, have been fired into the town since last Thursday morning.

"Several Japanese batteries are said to have been silenced during the assault on Sunday. Chinese, who arrived in a junk this evening, declare that the Japanese fire had perceptibly slackened.

"On Monday morning the streets were deserted, civilians and soldiers alike taking advantage of a lull to snatch a little sleep, which had previously been impossible, owing to the noise of bursting shells."

The Evening News publishes a dispatch from Chefoo under yesterday's date announcing that the Japanese captured "Chair Fort" of the Port Arthur defenses yesterday after a tremendous attack. This fort, according to the maps of Port Arthur available, is almost in the center of the chain of forts, of which it forms one, defending Port Arthur, from which it is only about a mile and a half distant. It occupies a commanding position and is possibly only second in importance to the Gold Hill forts.

Sinister Rumors in Capital.

[ASSOCIATED PRESS CABLE TO THE GAZETTE.]

ST. PETERSBURG, Aug. 24.—With all Russia hanging breathlessly on the fate of Port Arthur, even such a national event as the christening of the czarevitch is robbed of much of the prominence which would otherwise be accorded it, and St. Petersburg tonight is dim and silent with no sign of festivity. Although the fairy-like grounds of Peterhof are gay with flags and decorations in readiness for tomorrow's celebration, and though the great palace is filled with distinguished guests, the scene resembles more one of a weighty international conference than that of a gathering of merry-makers.

The capital tonight is filled with sinister rumors of Port Arthur's desperate straits. The superstitious are predicting the fall of the fortress on the day of the baptism of the czarevitch, but this is easily traceable to the fact that several big Russian reverses have occurred on Russian fete days.

It is reported that a message was received from Lieut.-Gen. Stoessel tonight which was sent from Port Arthur on the night of August 22, by way of Chefoo, saying that a desperate assault by the Japanese had been in progress during the previous 48 hours. No confirmation of this report can be had.

SOLID FRONT FOR PRESIDENT

No Wavering in the Ranks of the Republican Party.

LODGE CONFIDENT

Senator Says Roosevelt Is the Kind of Man Who Appeals to Americans.

WILL GET DEMOCRATIC VOTES

[BY ASSOCIATED PRESS TO THE GAZETTE.]

OYSTER BAY, L. I., Aug. 23.—President Roosevelt's first conference during his present sojourn at Sagamore Hill was with Senator Henry Cabot Lodge of Massachusetts, who arrived here last night. The president and the senator spent the greater part of today together. Senator Lodge passed some time reading the letter of acceptance which, except for the finishing touches and arrangement in final form, was completed before the president left Washington.

Senator Lodge left this afternoon for New York in order that he might be able to catch an evening train to Boston, where he has an engagement to deliver an address tomorrow.

"Republicans throughout the country," said Senator Lodge, "are presenting a solid front for the president. I do not find anywhere a single Republican who is expecting to support and vote for Judge Parker. Some gold Democrats who voted for McKinley in 1896 and 1900 have returned to their party. They, of course, will support Judge Parker. On the contrary, I know many Democrats who will support Mr. Roosevelt. He will get a large personal vote, for the president is the kind of a man who appeals strongly to every American. Among first voters and among young men generally he will poll a tremendous vote. I feel freely confident of the general result.

"In New England, that part of the country in which I am best acquainted and with the political trend of which I am most familiar, it is my judgment it is only a question of the size of the Republican plurality. Perhaps we shall not have a duplication of the immense majority received by McKinley, but even this would not surprise me."

During the day the president and Senator Lodge were joined at Sagamore Hill by Senator Aldrich of Rhode Island. Senator Aldrich arrived at Sagamore Hill on a yacht, coming directly from his country home in Rhode Island. He, too, considered with the president the letter of acceptance, going over the document very carefully in the brief time he spent at the president's home. Senator Aldrich said he did not doubt that Rhode Island would be carried by Roosevelt and Fairbanks by a substantial plurality.

Another caller on the president today was Lucius B. Swift of Indianapolis. Mr. Swift is an old personal friend of the president, who for many years has been interested particularly in civil service reform. He is spending a few weeks at one of the New Jersey summer resorts and visited the president on the latter's invitation.

Former Lieut.-Gov. Timothy L. Woodruff of New York will visit the president tomorrow. It is said positively that Mr. Woodruff will not discuss the New York gubernatorial nomination. The president is declining consistently to be drawn into that contest. The principal object of Mr. Woodruff in coming to Oyster Bay is to consider with the president the appointment of an assistant secretary of agriculture in succession to the late J. H. Brigham.

NEW YORK, Aug. 23.—Chairman Cortelyou today discussed the political situation in the northwest with Timothy E. Byrnes of Minneapolis. Mr. Byrnes told him that Minnesota was very strong for Roosevelt, and would also send a solid Republican delegation to the house.

Gov. Murphy of New Jersey, member of the Republican executive committee, said today that an active campaign will be opened at once in his state. Headquarters have been established in Newark.

GOVERNOR AND PARTY LEAVE FOR PITTSBURGH

ST. LOUIS, Aug. 23.—Gov. Samuel W. Pennypacker of Pennsylvania and his official party, which numbers 143, departed for Pittsburgh tonight on a special train over the Vandalia railroad. The First City troop of Philadelphia, which has been encamped at the world's fair, will remain until tomorrow.

POSSIBILITY FOR NEW YORK GOVERNORSHIP

Nicholas Murray Butler, President of Columbia University.

Mr. Butler has been added to Gov. Odell's string for head of the Republican state ticket. While Mr. Butler's name was originally suggested by Edward Lauterbach to prevent Timothy L. Woodruff from breaking into the fight, the governor is said to be favorably disposed in case he decides to support a New York City man as his successor.

HEIR'S BIRTH BRINGS BLESSINGS TO RUSSIA

Czar Grants Amnesty to Political Offenders and Finlanders. Reduces Sentences.

[ASSOCIATED PRESS CABLE TO THE GAZETTE.]

ST. PETERSBURG, Aug. 23.—Emperor Nicholas' manifesto on the birth of an heir to the throne, the text of which will be published tomorrow, abolishes corporal punishment among the rural classes and for first offenses among the sea and land forces; remits arrears owing to the state for the purchase of land and other direct imposts; sets apart $1,500,000 from the state funds for the purpose of forming an inalienable fund for the benefit of landless people of Finland; grants amnesty to those Finlanders who have emigrated without authorization; remits the fines imposed upon the rural and urban communes of Finland which refused to submit to military conscription in 1902 and 1903, and also remits the fines imposed upon the Jewish communes in the cases of Jews avoiding military service.

The manifesto provides for a general reduction in sentences for common law offenses, while a general amnesty is accorded in the case of all political offenders with the exception of those in which murder has been done.

RIOTS IN AUSTRIA.

Germans Forced to Leave Country and Appeals Are Made to Government to Quiet Outbreak.

BERLIN, Aug. 23.—(Special Cable.)—Emperor Francis Joseph of Austria is said to be greatly worried at the many signs of dissatisfaction with his regime. The conditions in Silesia are especially alarming and bloody skirmishes are being fought almost every day between the Czechs and the Germans and indications are that a general outbreak of the Czechs cannot be prevented unless the garrisons of all towns be greatly strengthened.

A number of Germans are already leaving the country in anticipation of the outbreak, while others have sent urgent calls to the government asking for military protection. While it has always formerly been the Germans who have incited to riot, it is acknowledged this time that the whole blame rests on the Czechs, who have been restless for a long time.

WIDENER BABY GETS PRESENT OF $500,000

NEWPORT, R. I., Aug. 23.—(Special.)—Little Miss Fifi Widener, now one of the richest babies in America, reached her third birthday yesterday, when her mother, Mrs. Joseph Widener, gave a birthday party at the Pinard cottage for 40 children. Fifi received large money settlements from her parents and from her grandfather, P. A. B. Widener, who presented Fifi with $500,000.

BALTIC FLEET REMAINS TIED UP AT CRONSTADT

Hundreds of Mechanics Are Still Engaged Fitting Out Vessels for Service.

[SPECIAL CABLE TO THE GAZETTE.]
(Copyright, 1904, by New York Herald Co.)

ST. PETERSBURG, Aug. 23.—Anyone caring to visit Cronstadt can convince himself, from the number of fighting tops seen towering above the protecting walls and gates of the government naval dockyard, that the second Pacific squadron, in spite of many declarations to the contrary, has not left, but is being energetically worked upon by a thousand mechanics.

The Jeniseug and the Uzumrud, handsome second-class cruisers, have just gone to Cronstadt, while the Oleg, one of the prettiest boats imaginable, with an exceptional artillery protecting girdle, lies off the Franco-Russian works in the Neva alive with workmen putting on the finishing touches.

The Alexander III., the Orel, the Alexander II., the Navarin, the Sissoi, the Veliki, the Admiral Nachimoff, the Dimitri and the Svetiana are lying at Cronstadt.

M. Nimorovich Detchenko wires that Gen. Stoessel was able to arm the volunteers with 20,000 Mauser rifles dropped by the Japanese in a panic caused by the Russian mines.

Count Cassini's interview, published recently, is much approved, as it echoes accurately the universal sentiment that Russia can and will win, however long it takes and however great the sacrifice.

CASTRO WILL BE FOOLED.

Thinks Roosevelt Will Not Act in Asphalt Matter Because Presidential Election Is Pending.

WILLEMSTED, CURACOA, Aug. 23.—(Special Cable.)—In explanation of President Castro's answer regarding the asphalt trouble, which was filed at the United States legation in Caracas, it is believed that Castro felt convinced that the government at Washington would not dare to do anything pending the presidential election.

A Dutch banker who has just landed here from Caracas declared that the foreign legations there believe, on the other hand, that President Castro will feel the power of the United States. He said the situation is critical. Following Castro's answer there is almost a panic in financial and commercial circles.

Father Wipes Out Family.

NEW YORK, Aug. 23.—George Boyce, his wife, Ida, and their 6-months-old baby, were found shot to death tonight in a tenement house in West Sixty-second street. A revolver lay on the floor near the body of the man. From this the police believe that the man killed his wife and child and then himself.

NO MONEY TO PAY PRINTERS

Democratic Congressional Campaign Tied Up for Want of Cash.

G. O. P. TEXT BOOK

Republican Committee Issues Little Red Volume Replete With Facts.

COWHERD IS SHORT OF FUNDS

THE PITTSBURGH GAZETTE BUREAU,
Room 10, Postal Building.
WASHINGTON, D. C., Aug. 23.

The issuing of the Republican campaign text book has chased a cold chill along the spine of the Democracy. Especially is the Democratic congressional campaign committee worried over the appearance of this little red volume, so replete with Republican truths, tersely told. Chairman Cowherd of this committee has had enough worries lately, with orders pouring in from local Democratic leaders all over the country, for an aggregate of millions of documents to circulate among the voters, and no money to pay the printer. And now comes more trouble, in the shape of the Republican text book, which contains arguments, backed by facts, sufficient to convince the most skeptical voter.

Byron W. Holt, a statistician who can produce figures to show anything that is desired to demonstrate, has been assigned the duty of "throwing the harpoon" into the Republican text book. He has been told to dig up something to prove that "It isn't true," or if it is true, the Republicans did not do it. Mr. Holt is busy and the result of his efforts will be given to the public, providing that in the meantime Chairman Cowherd secures a few contributions, enough to pay for printing the deductions arrived at by the official statistician.

Meanwhile the efforts of the committee to capture the "40 doubtful" congressional districts is lagging. The sinews of war are not forthcoming and Chairman Cowherd is fearful of getting himself into the same kind of hole as James P. Kerr of Pennsylvania did when he was at the head of the committee. Kerr made himself responsible for certain printing and other expenses, believing that the contributions sufficient to pay for them would come in. But he failed to get the money and eventually had to pay about $10,000 out of his own pocket.

The congressional committee has figured that there are 40 doubtful congressional districts in which they have a chance to win and thus change the complexion of the house of representatives. A few weeks ago they started in to corral all of these districts and were merrily at work when they suddenly discovered that there was a shortage in the funds, and then it dawned upon them that the calculations that there would be plenty of money this year for the Democrats were false. Hence the congressional committee is waiting for the national committee to extend the first aid to the injured, and if it is not forthcoming there will be little done toward capturing that "doubtful 40."

EX-GOVERNOR PATTISON LEFT A $9,000 ESTATE

His Once Comfortable Fortune Was Carried Down in Failure of Late W. M. Singerly.

[BY PRIVATE WIRE TO THE GAZETTE.]

PHILADELPHIA, Aug. 23.—Through a lawyer by profession, former Gov. Robert E. Pattison, who died on August 1, at his Overbrook home, left no will. The record filed with Charles Irwin, deputy register of wills, today, showed that Mr. Pattison left an estate valued at only $9,000. The personal property is valued at $5,000, and the real estate, including the Overbrook residence, as $4,000.

Mrs. Pattison renounced her right to act as executor in favor of William Russell Smith of 2030 North Broad street, her brother. Letters of administration in the estate were granted Mr. Smith today. The heirs are: Mrs. Anna B. Pattison, the widow; Lavina R. Pattison, a daughter, and Robert E. Pattison, Jr., a son.

Mr. Pattison possessed at one time what must have been a comfortable fortune, most of which he lost at the time the late William M. Singerly failed, carrying with him the Chestnut Street Trust Company and the Chestnut Street National bank.

GERMAN JURIST PRAISES WORKINGMEN OF AMERICA

He Urges His Government to Send Young Men to Learn the Methods of This Country.

By MALCOLM CLARKE.
[SPECIAL CABLE TO THE GAZETTE.]

BERLIN, Aug. 23.—A new book by the well known judge of the supreme court of Wuertemberg, Dr. Hintrager, entitled, "How the American Workingman Works and Lives," has just appeared and has been received and read with great interest. The author, who has spent considerable time among workingmen in all parts of the United States, writes in a most sympathetic manner about conditions in America, and tells his countrymen that German workingmen have much to learn from their brethren across the ocean.

He also recommends that the government of Wuertemberg ask for a special appropriation to enable it to send a number of young workingmen to the United States every year to learn American methods and inaugurate them on German soil, which he says would greatly aid German industry.

WORCESTER, MASS., Aug. 23.—At 9 o'clock tonight, Gen. Rockwood Hoar said that Senator Hoar had had a very comfortable day, and while there is no substantial change tonight, his pulse was more regular and his throat caused him less trouble.

VICTORY LOST BY A BLUNDER

Select Council Failed to Pass Filtration Bond Ordinance Finally.

WIGHTMAN TO BLAME

Forgot to Take Last Vote on Bill—Meeting Today to Correct Error.

VERNER CONVERTS ATKINSON

With victory in its grasp and enough votes to pass the bill finally, the city administration failed yesterday afternoon to make the $5,000,000 bond ordinance a law, owing to a blunder committed in select council by President Wightman.

The ordinance was passed on third reading, 20 to 12, but Wightman forgot to put the measure on final passage. John Upperman caused him to lose his bearings by making a motion to adjourn before action on the bond ordinance was completed.

Council adjourned before the error was discovered. The leaders decided that the only way to remedy the mistake was to call another meeting, and President Wightman issued the call for this afternoon at 3 o'clock.

The news that the bond ordinance had been held up by a blunder came as a severe shock to Director Bigelow and Murry A. Verner, who were in the mayor's office.

"It is the stupidest thing I ever heard of," said Bigelow.

However, he did not blame Wightman as much as he did Upperman. He said Upperman should have waited until the ordinance had passed finally before making any motion to adjourn, but Upperman said when the vote on third reading was taken he supposed the vote was on final passage.

Consternation Among Leaders.

It was also discovered after the meeting that Wightman had failed to have the ordinance read the third time. The third reading of a bill is merely the reading of the title, but this was overlooked. The bill was called up by R. H. Douglas and A. H. Leslie moved that select council go into a committee of the whole to amend the ordinance. Leslie's motion was lost, 18 to 14, and Douglas moved that a vote be taken on third reading. Without having the title approved or the ordinance read the third time, Wightman stated that the ordinance was on third reading and told the clerk to call the roll. The vote on third reading was 20 ayes and 12 noes, it requiring just 20 votes to pass the measure.

Then Upperman moved to adjourn, making the motion in haste to anticipate Douglas, who was on his feet to move an adjournment to the second Monday of September. Wightman recognized Upperman, but Douglas moved to amend Upperman's motion by adjourning to September. Douglas' motion was defeated by 19 to 13 and Upperman's motion carried by the same vote. The councilmen were still leaving the council chamber when it was discovered that the bond ordinance had not been finally passed.

There was a hurried and excited conference in the mayor's office, attended by Verner, Bigelow, Wightman, Upperman, Councilman West and several others. The faces of Bigelow and Verner were a picture of dismay. Bigelow's lieutenants were hurried after the departing members in the hope of getting them back to hold another session, but the search proved friutless. Then the question of calling another meeting for today was taken up. It was agreed that this was the only thing to be done. Special delivery letters were sent to the members.

Atkinson Locked With Verner.

The administration will have another fight on its hands today to get 20 votes. When the body met yesterday there were but 19 votes for the bond ordinance. Just before the meeting T. O. Atkinson of the Twenty-fifth ward, who had previously voted with the opposition, was called into Mayor Hays' private office, where he met Verner. The door was closed on Verner and Atkinson and locked, the key being given to the mayor's messenger. Atkinson came out in about 10 minutes.

Select council had barely been called to order when Atkinson made a motion to adjourn to the second Monday of September. The opposition had only 13 members present and could not hope to carry the motion, but the motion served the purpose for which it was intended and demonstrated that the administration had but 19 votes, or one short of the number necessary to pass the ordinance.

Although the meeting had been called for 3 o'clock, and a quorum was present at that hour, President Wightman did not call the body to order until 3:45. He had been instructed to wait for C. L. Zollinger of the Thirty-seventh ward, whom Bigelow claimed and who was expected to give the 20th vote for the bond ordinance. Zollinger failed to appear, although he was sought by Bigelow's messengers at every place where he might be found. When it was demonstrated by the vote on Atkinson's motion to adjourn that the administration was one vote shy, President Wightman started to prolong the meeting in hope of Zollinger appearing. He called up a street repaving ordinance and it was read and passed finally.

Atkinson Deserted Opposition.

In the meantime, the administration managers, concluding that they could no longer rely upon Zollinger, called out Atkinson. Atkinson went to the mayor's office again to see Verner. Douglas saw that delay meant loss to his side, and he called up the bond ordinance. Atkinson returned while the vote was being taken on the passage of the bill on third reading and he voted aye, giving the administration the victory, which was lost a minute later by the blunder of President Wightman.

Bigelow's lieutenants and councilmen were making a desperate hunt last evening for Zollinger, sending men to scour the city. They say if it is possible to reach him, whether in or out of the

FINANCIER FORCED INTO BANKRUPTCY

Treasurer of Catholic University Is Declared to Be Insolvent.

SENSATION AT WASHINGTON

The Pittsburgh Gazette Bureau.
Room 10, Postal Building.
WASHINGTON, D. C., Aug. 23.

Thomas E. Waggaman, long considered Washington's most solid millionaire, and who is treasurer of the Catholic university and a liberal patron of the arts, was today the object of bankruptcy proceedings. Financial and Catholic circles have been treated to a decided sensation.

The officers of the Second National bank, the National Bank of Washington and the National Metropolitan bank today filed a joint petition in the supreme court of the District of Columbia asking that Thomas E. Waggaman be declared a bankrupt within the meaning of the law. The petitioners state that Mr. Waggaman is insolvent.

These proceedings were precipitated by the announcement yesterday that Mr. Waggaman had made a deed of trust for $876,168.96 to secure the Catholic University of America for promissory notes soon to mature. This was additional security for the money advanced Mr. Waggaman for investment for the university. For several months there has been dissatisfaction with these investments. It is learned that at the banks named Mr. Waggaman has been rather slow in meeting obligations.

When the deed of trust was filed yesterday Mr. Waggaman was asked to invite voluntary proceedings in bankruptcy. This he declined to do, saying he could meet his obligations, and the three banks named then decided on joint action to force him into bankruptcy. They will ask that the deed of trust yesterday recorded be set aside. They will probably also ask to have set aside the deed executed in 1898, but recorded only yesterday, conveying to Dr. Daniel B. Clarke, father of his first wife, his office building at 917 F street, and his residence property for $75,000.

All kinds of rumors fill the air regarding the investment of the funds of the Catholic university, but it appears that the university is well protected by the security advanced. Mr. Waggaman's obligations in this and other cities are variously estimated from $100,000 to $1,000,000.

Mr. Waggaman has been paying the university the unusually large interest of 6 per cent per annum. About a year ago he was deprived of the collection of the rents of property belonging to the university. The $150,000 annually derived from this source had given him a working balance. Deprived of this, he rapidly became cramped.

MRS. PHIPPS REGRETS MISSION TO CHICAGO

Denial That Effort Was Made Toward Settlement of Divorce Suit—Mother Wants Her Children.

"Neither Lawrence C. Phipps nor Mrs. Phipps has made any overtures toward a settlement of their pending divorce suit," said Attorney James S. Young, when he arrived yesterday from Chicago, where a conference was held between Mrs. Phipps' attorneys.

"There is little truth in anything that is published in the Chicago dispatches," said Mr. Young. "Mrs. Phipps went quietly to Chicago and her coming gave rise to the rumor there that she would negotiate a settlement, or at least an amicable separation. This is all wrong. The regular routine will not be interrupted in the proceedings in the Denver courts, unless the unforeseen happens."

Mrs. Phipps returned from Chicago, accompanied by Attorney Young, early yesterday morning. When interviewed last night she said: "No, there has been no settlement effected as a result of my trip to Chicago. Yesterday, from Chicago, I filed another suit in the Denver courts, moving to quash the divorce proceedings instituted by my husband, on the ground that I was not properly served with the papers. We instructed our attorney in Denver to make the move. I cannot say what passed at the Chicago conference as something may yet come out, and besides my attorneys tell me that I like to talk too much anyway. I regret that our meeting in Chicago should have become public. I am sure I did all in my power to get out of Pittsburgh without making any fuss, and we all went quietly to Chicago. We went to the Auditorium annex, and I am very sure that there were not many who knew that we were there. It is true that I have refused absolutely to consider any proposition from my husband which does not include giving me the custody of my children at least half the year. I want my babies; they are mine."

TWO HUNDRED MEN SENT TO GIRARD

Non-Union Workers Secured to Take the Places of Amalgamated Members.

TRAVELED ON SPECIAL TRAIN

Two hundred non-union men left the Union station on a special train at 11 o'clock last night to take the places of the Amalgamated men who are resisting a reduction of from 28 to 71 per cent at the plant of the American Steel Hoop Company at Girard, O. The men had been secured from the upper and lower Carnegie mills of the Sharpsburg plant. The train consisted of two coaches and a combination baggage car. The latter was stocked with cots, clothing and food. It was at first intended to send the men to Girard on the regular train, which leaves Pittsburgh at 5:35 p. m. Not all the men were on time, and it was decided to charter a special train and take them into the works early this morning.

Another trainload will be taken some day this week to Youngstown, when the company will have sufficient workers to man the three steel hoop plants. The mill at Warren, O., has not been operated for nearly a year, and it is not expected any attempt will be made to resume at this plant until the two at Youngstown and the one at Girard are working satisfactorily.

The steel hoop company only needs skilled men, as the tonnage men are working under contract and the unskilled men have no grievance. At the three mills where the men are resisting the reduction only 25 per cent of the men employed are affected, and all the other men are working.

At first it was the intention of the company to secure men to man the Republic works, generally known as Wharton's mills, at South Twenty-fifth street. Later it as thought best to allow this mill to go along without special assistance until the three large hoop mills had been put into good condition.

All the national officers of the Amalgamated association are out of the city, with the exception of M. F. Tighe, assistant secretary. President Theodore J. Shaffer is still at his home ill. Secretary John Williams is in Chicago attending a wage conference with the Republic Iron and Steel Company. John Pierce, general organizer and assistant to President Shaffer, is at Youngstown, watching the situation. William Gibson, district vice president, and Richard Fitzgerald, vice president of the Sixth district, which includes Youngstown, Girard and Greenville, are also at Youngstown.

PITTSBURGH DETECTIVE WAS GIVEN BAD SCARE

Police Rescue Him from Mob of Strikers. Mill at Girard Is Forced to Stop.

[Special Telegram to The Gazette.]

YOUNGSTOWN, O., Aug. 23.—Early this evening one man had a narrow escape from rough handling when he alighted from a Pennsylvania train and attempted to enter the works of the company in Girard.

He asked for Capt. Freed, the head of the police department of the Carnegie company, and was met with jeers and hoots from the crowd. He beat a retreat when several hundred men surrounded him and he went into the office of the railroad company. He called up the office of the company, some 100 yards away, and asked for police protection.

Fifteen special policemen rushed out to protect him but it was too late. The one policeman of the town had been called in by the strikers and he was taken to the office of the mayor. He was examined and said that his name was Fred Hodge of Pittsburgh, the head of the detective service of the company. He was later released and conducted in safety to the mills.

One of the contract men whom the Amalgamated association promised to allow to remain at work quit today. He is Tom Burns, roller on the 10-inch guide mill, with his crew. This will compel the laying off of that mill. At Girard, the special police succeeded in getting in a considerable amount of provisions without opposition this afternoon.

ONLY A TAME GOOSE IN SUSPICIOUS BOX

Secret Service Men Drowned a Pet Fowl That Had Been Sent President Roosevelt.

[By Private Wire to The Gazette.]

NEW YORK, Aug. 23.—Though Secretary Loeb, with his characteristic generosity, today declared that he was willing to take the blame for the drowning of a pet goose shipped to the president for use as a campaign mascot by two Syosset farmers, he has been fully exonerated by the president, and instead the secret service men in Oyster Bay are being severely censured.

When the president returned to Oyster Bay, William and Louis Crane, vaudeville artists in winter and farmers in summer, crated up the largest goose on their farm and expressed it to the president, with a note wishing him success and offering their pet as a mascot for the campaign. The box was wrapped up in paper and they forgot to leave a breathing hole for the goose. The station master at Syosset did not know what the package contained and sent a warning telegram to Secretary Loeb. When the mysterious box arrived Secretary Loeb gave it to the secret service men, who, while hundreds of villagers looked on from ashore, submerged it in the bay to kill its supposed explosive qualities.

As the box filled with water, a hissing sound issued from it, and the blood of the secret service men ran cold. They stuck bravely to the task until the hissing subsided, then opened the box, only to find within a drowned goose.

The Crane brothers were in town today and heard of the fate of their pet. They immediately annexed the blame to the burden Secretary Loeb already carries, but the president, it is said, feels that the secretary did only his duty, and that the secret service men should be taught to distinguish geese from high explosives.

FATHER'S TERRIBLE DISCOVERY

Finds Daughter With Throat Cut and Her Husband With Razor.

PARKERSBURG, W. VA., Aug. 23.—(Special.)—William Pullins, farmer, passed the home of his daughter, Mrs. Ben James while on his way to Belleville this morning. She went to the roadside and spoke to him, then went indoors. Pullins heard screams and entering the house found his daughter lying on the floor with her throat cut from ear to ear and her husband standing over her body with a bloody razor in his hand.

James claims his wife cut her own throat and he took the razor from her. The neighbors say James and his wife quarreled frequently. Mrs. James will die.

WASHINGTON, PA., Aug. 23.—The blue and the gray will again gather around the campfire at Fredericktown, Washington county, tomorrow and Thursday, August 24 and 25, when the 31st annual reunion of the Twenty-second Pennsylvania cavalry, Ringgold Battalion association, will be held and the famous McNeill rangers of the south will be present as guests. PAYNE THREW WITNESS FEE INTO THE CONSTABLE'S FACE

Postmaster General Refused, Moreover, to Obey a Summons Calling Him Into Court to Testify in a Suit Against Chauncey M. Depew.

[By Associated Press to The Gazette.]

CHICAGO, Aug. 23.—Postmaster General Henry C. Payne was today served with a summons to appear in a justice court in this city on August 26 as a witness in a case against Chauncey M. Depew. The postmaster general did not receive the summons with pleasure and informed the constable, John Simmons, that he would ignore it entirely.

"Not only did he say that," declared Simmons, "but when I offered him 50 cents, and even added 10 cents for mileage, he threw the money in my face."

Last June, when Senator Depew was in Chicago attending the Republican national convention, he was sued by S. G. Brabrook of this city, who declared that he had in some manner been defrauded by a concern called the Penny Publishing Company, with which, he asserted, Senator Depew had been connected in 1892. The case was continued until August 26, and ever since then the constable has been trying to serve a summons on Postmaster General Payne. Today he located Mr. Payne in the Chicago club, after a long search.

"I have a subpoena for your appearance in Justice Caverly's court, August 26," said the constable.

Mr. Payne made no reply.

"It is the case of S. G. Brabrook versus Chauncey M. Depew," said the constable.

Still no reply.

"Here is 50 cents witness fee," said the constable, and still there was no reply.

"Here is 10 cents car fare," added the constable, and then he received a reply.

"I will ignore the summons and will not appear in that court under any circumstances," said the postmaster general. Then, according to Constable Simmons, Mr. Payne tossed the money at him and walked away.

The constable gathered up the 60 cents and returned to his desk in Justice Caverly's court.

MEMBERS OF CABINET GOING ON THE STUMP

Not One of the President's Official Family Is Left at Washington.

[By Private Wire to The Gazette.]

WASHINGTON, Aug. 23.—Secretary of War Taft left this afternoon for Vermont where he will take a hand in the campaign in that state. With his departure there is not a member of the president's cabinet left in Washington and the president himself is enjoying a vacation at Oyster Bay.

Some of the cabinet members are on vacation and others are out looking after politics. Secretary Shaw of the treasury is on his way east, where he is scheduled for a stumping tour. Mr. Shaw enjoys campaigning and would rather take part in a political skirmish than occupy the same time at a summer resort. Secretary Wilson of the agricultural department is making speeches up in Vermont.

Secretary Metcalf of the department of commerce and labor is on his way to California, where he will look after the interests of the Republican party and do some stumping. Postmaster General Payne has gone to his home in Wisconsin, stopping on the way at Chicago to confer with the Republican managers at that point and give them the benefit of his experience in running campaigns. Up in his home state he will put his shoulder to the wheel and while fighting in the ranks of the stalwart faction, he will do all in his power to prevent the factional trouble from endangering Republican success there.

Secretary of State Hay is at his summer home at Lake Sunapee, N. H. His vacation was interrupted by the Turkish trouble and he was obliged to come back to Washington long enough to settle that little matter. Now that that incident is disposed of he has gone back to New Hampshire, but will likely make several speeches during the campaign. Secretary Morton of the navy department and Attorney General Moody are on a cruise of inspection of the naval stations and will return here soon. Secretary Hitchcock is away on his vacation and will not return for several weeks.

New Officers of Wabash-Pittsburgh Terminal to Attend to Minor Matters of Routine.

In order to have in New York representatives who can take care of the routine detailed work of the executive department, the stockholders of the Wabash-Pittsburgh Terminal railway have added two new offices to the roster of the road.

The statements that J. W. Patterson, Sr., who is vice president and chief engineer of the road and handles for it practically all local executive matters, would be displaced or affected by the additions is without any foundation whatever.

The new vice president is A. H. Calef, secretary-treasurer of the Missouri Pacific and other Gould lines. John C. Otteson, secretary-treasurer of the Wabash Railroad Company, is the new assistant secretary and treasurer of the Wabash-Pittsburgh Terminal. Both will have their headquarters in New York.

GOLD STANDARD IN FORCE IN PHILIPPINES

New Currency Is Popular and Change Was Made Without Disturbing Business.

[By Associated Press to The Gazette.]

WASHINGTON, Aug. 23.—When the new currency system was proposed for the Philippines there were predictions in some quarters that the conservative islanders could not be readily induced to surrender the Mexican dollars and the Spanish coin, with which they had been familiar so many years, in favor of the new Philippine peso proposed by the commission. But reports received here show that the change has been made smoothly and more expeditiously than was thought possible. Col. Edwards, chief of the insular bureau, has just received the following letter from Henry C. Ide, secretary of finance and justice of the Philippines, dated Manila, July 22, bearing on this subject:

You will be interested in knowing that our new currency scheme has made great progress since I last wrote you. Nearly all of the business houses have, by common consent, put their business on the basis of the new currency. In all the provinces it is found in free circulation, and the people now object strenuously to taking any other currency. The old currency has been very largely brought into the insular treasury for recoinage or the Mexican has been exported. What little Mexican there is in the islands is now flowing out because it has a pretty good market in China, and the abnormal prices that were paid for it for a time in the Philippine islands have ceased with the special demand for it, and exchange on Hongkong is substantially at par at the present time.

The whole of the old currency will not be eliminated until our taxing law gets fairly to work, but for all practical purposes the new currency will have eliminated the old and taken its place by January 1, 1905. It is no small achievement for our government to have eliminated $30,000,000 or $40,000,000 of debased currency and have substituted for it a currency based upon the gold standard, all within less than one year and six months, and without a tremendous jar.

GEN. NOGI RECALLED.

Mikado Is Reported to Have Supplanted Him by Field Marshal Marquis Yamagata.

BERLIN, Aug. 23.—In a dispatch from Liao-Yang, under date of August 23, the correspondent of the Lokal Anzieger says:

"It is rumored that the mikado has recalled Gen. Nogi, and has ordered Field Marshal Yamagata, chief of the general staff at Tokyo, to assume command of the besiegers at Port Arthur.

"The indications are that the initiative is about to pass to the Russians. The Japanese plan of campaign, including the attack upon Liao-Yang, has apparently been deranged by the unexpectedly stubborn resistance at Port Arthur.

"Gen. Kuroki's army has been withdrawn to the south of the Taotse river, and only outposts are near the river. Japanese troops under Gen. Ukashima are reported to be in the Liao river valley."

Trainmen's Conference Postponed.

The Brotherhood of Railway Trainmen, who have a grievance with the Ft. Wayne system of the Pennsylvania lines, did not confer with the officials of the company yesterday. A. M. A conference will be held today if the officials arrive from Chicago in time.

RUSSIA'S BOATS DO NOT BUDGE

No Attention Paid to Expiration of Time Limit Set by China.

BRITISH CONSUL IS PRODDED

[Associated Press Cable to The Gazette.]

SHANGHAI, Aug. 23.—Noon—The final time limit allowed by the taotai of Shanghai for the Russian cruiser Askold and the torepdo boat destroyer Grozovoi to disarm has passed without compliance with this order.

A meeting of the foreign consuls was held this afternoon, but the Russian consul general, M. Kleinmenoff, was absent and no definite course of action was decided upon. The taotai has requested Sir Pelham Warren, the British consul general, to order that the repairs to the Askold be stopped.

A Japanese fleet is outside the harbor awaiting developments. A visit to the Askold shows that her hull is not in condition to go to sea. The repairs on her boilers and funnels have been rushed, but the replacing of damaged plates on her hull has been pursued in a desultory manner.

Certain promient American firms have made a request upon American Consul General Goodnow for the protection of cargoes and wharves near the Askold. The request was forwarded by Mr. Goodnow to Rear Admiral Stirling, in command of the American fleet, who has the matter under consideration.

WASHINGTON, Aug. 23.—Acting Secretary of State Adee has cabled Minister Conger at Pekin a request that he report as soon as possible the facts concerning the situation at Shanghai. A similar request also has been addressed to Consul General Goodnow at Shanghai, and Consul General Fowler at Chefoo.

Although no admission on that point is yet obtainable, it is believed that instructions have been sent or will be sent to Rear Admiral Stirling to co-operate with the minister and consuls in the protection of American interests in the treaty ports.

LONDON, Aug. 24.—The Standard this morning unable to conceal its disappointment that the United States government is not prepared to protect the neutrality of China at Shanghai, editorially contends that the United States could have taken the lead in the matter without arousing the jealousies and suspicions that must follow intervention by any European power.

The contract calls for an expenditure of about $75,000. The station will be used for city freight. The main station is to be at South First and Carson streets.

The Pittsburgh & Lake Erie has awarded to the McClintic-Marshall Construction Company of this city the contract for a steel bridge at Beaver. The bridge will be double-tracked and so built as to allow the addition of two more tracks. The piers will be of concrete.

IMPATIENT CROWD SAW NO BATTLE

Nearly 15,000 People Waited for Three Hours in Riverview Park and Were Disappointed.

BAND CONCERT NOT GIVEN

Almost 15,000 persons stood about the damp hillsides of Riverview park, Allegheny, for more than three hours last night, waiting for the sham battle and drill that were given by a battalion of the Fourteenth regiment. The exercises that were to have started at 7 o'clock were not commenced until after 10, and during the interim 50 policemen battled to keep the impatient crowd off the parade ground on the summit of the hill overlooking Kilbuck hollow. As it was, not more than 500 people witnessed the sham battle, as it was held in Kilbuck hollow instead of on the parade ground, where the expectant crowd waited. The reports of the volleys of musketry in the hollow was all that was offered the thousands who traveled in crowded cars to witness the mimic battle. And after the most elaborate preparations no band concert was given at the new shelter house, the dedication of which was the occasion of all the proceedings of the evening. Not more than a few score of people saw the shelter house, as it was a mile away from where the crowd was assembled. If the structure was dedicated at all, the exercises were done at long range, for at no time were either the guardsmen or crowd within half a mile of the building.

The miscarriage of plans started when several of the companies of the Fourteenth regiment were taken in street cars to Woods Run and Perrysville avenues, and entered the park at the upper Woods Run avenue entrance. As this is more than a mile from Kilbuck hollow, almost an hour was lost by the soldiers in wandering over the dark hills of the park before they arrived at the assembly ground. Then innumerable other hindrances interposed and caused delays that were unlooked for. The sham battle that was to have started at 7 o'clock was more than two hours late, and as the public had not been informed that it was to take place in Kilbuck hollow, instead of on the hill, the guardsmen had but a few spectators, who were attracted by the first volleys fired. The march from the lower end of the hollow to the parade ground consumed another half hour.

It was a tired and impatient crowd that greeted the six companies of the Fourteenth when they filed into the parade ground. The drill lasted but a few minutes, and in disappointment the thousands who had waited so long turned in disgust to the street cars. Seldom since the park was opened has there been so many people in it, and as Riverview is accessible by but one street car line it was long after midnight before the last of the crowd succeeded in leaving the park entrances. Because of the lateness of the hour it was decided to have no band concert. Director McIlvain, who has planned so long for the dedication of his first shelter house, could not be found last night, and it is not known whether he intends to have another dedication at which the crowds can get a look at the building and witness the dedicatory exercises.

Burglars in the Bloomfield District.

Burglars entered the house of Samuel Kelley, a real estate agent, at Millvale and Friendship avenues, last night shortly after 10 o'clock, but were scared away before they secured any booty. Joseph Kelley, a son of Samuel Kelley, heard the burglars at work in the third story and telephoned to the police at No. 5 station. Lieut. Lawrence Bartley and a squad of patrolmen went to the house, but the burglars had taken alarm and fled.

LARGE TRACTION PLANS SUCCEED

Local Capitalists Will Build Lines Up Allegheny and Along B. & O. Railroad.

BOND ISSUES OF $2,600,000

Two big electric railway projects, backed mainly by Pittsburgh capital, have just been brought to the point where their success seems assured. One is called the Pittsburgh & Allegheny Valley, and the other the Meyersdale & Salisbury. The capital stock and the bond issue of the first is $1,100,000, and the second $1,500,000. O. W. Kennedy, formerly manager of the H. C. Frick Coke Company, and now president of Orient Coke Company, is president of both lines, and well known business men of Pittsburgh and of the sections through which the roads are to be built are represented in the directorates. William W. Staub, who has been prominent here before in electric railway projects, has promoted both of the new lines.

The contract for the construction of the Pittsburgh & Allegheny Valley line has been awarded to Smethurst, Allen & Baker of Philadelphia. Representatives of that firm will be in Pittsburgh today to attend to the contracts for various parts of the construction, for equipment, etc. It is understood that McCann, Smith & Bennett of Greensburg will do the grading part of the work. The general contract amounts to between $500,000 and $750,000.

From Oakmont to Apollo.

The Allegheny Valley line is to extend from Hyde Park, Apollo and Leechburg, to Oakmont. At Oakmont it will connect with the new line of the Pittsburgh Railways Company. The line now being built by Keeling & Ridge and financed by William A. Stone and other Pittsburghers, to run from Indiana to Latrobe, will ultimately be connected with this line so that the present project serves as an important link in a system that will connect Pittsburgh with many large towns to the east.

The first part of the line to be built will be the section between Leechburg and Apollo. The rights of way have been secured, and if the present plans can be carried out cars will be operating on that end of the line by December 1. The Leechburg Electric Light Company will be absorbed by the new railway company, which will make the electric light business along its route one of its most important features. The power plant will be built either at Leechburg or at Hyde Park. The company has secured 100 acres of coal near Hyde Park and desires to locate its plant near the mine, so that it can most economically secure its fuel.

Park Near Leechburg.

Leaving Oakmont, the route of the line will be through Parnassus, New Kensington, Arnold and Valley Camp to Vandergrift, Leechburg, Hyde Park and Apollo. The entire length of the new line will be about 40 miles and the population through that section will average 5,000 per mile. To increase still further the travel, a park will be established near Leechburg.

As stated, O. W. Kennedy is president of the company. The other officers are: Vice president, Hon. John Q. Cochran, Apollo; treasurer, W. J. Ward; secretary, Dr. J. D. Orr; directors, Hon. S. M. Jackson, Apollo; J. Klingensmith, Leechburg; William Gibson and William W. Staub, Pittsburgh, and Messrs. Kennedy, Cochran and Orr.

The Meyersdale & Salisbury line, the second project of the same capitalists, is even a larger one than the Allegheny Valley line. Its construction contract has been taken by Thomas Degan & Co. of Philadelphia. The company has an option on the Cumberland & Westernport line, running from Cumberland, Md., to Lonaconing, on George's creek, via Frostburg, a distance of 17½ miles. To connect with the line it is proposed to build 15 miles of new road across Big Savage mountain from Boynton, Pa., to Frostburg, Md. The power house will be built at Boynton. The number of residents per mile is about 3,000, exclusive of the present Cumberland & Westernport. Including the population served by that road the average will be from 5,000 to 7,000.

Have Private Rights of Way.

The towns of Meyersdale and Salisbury themselves are large and important ones, which offer good opportunities to a traction company. The president of the company is O. W. Kennedy. J. W. Tryale of Pittsburgh is vice president; W. J. Ward is secretary and H. L. Borland, treasurer. The board includes Messrs. Kennedy, Tryale, Borland, William Gibson, Homer J. Lindsay and William W. Staub.

As far as possible, the new lines are to be built on private rights of way. Heavy steel will be used and modern equipment furnished throughout. The engineering work has been done by R. W. Hunt & Co of Pittsburgh and favorable grades and curvature have been secured.

Some large contracts for equipment will be let shortly for the roads, and it is intended to rush construction with all possible speed. The underwriting of the bonds has been accomplished, in large part, in this city.

Labor Day Committee Met.

The general Labor day committee met last evening at the office of the Union Workingmen's Political association, 210 Fourth avenue. The meeting was somewhat lively, caused by a charge of negligence against one of the members. The sub-committees reported that everything had been done that would be of any benefit to the parade and the exercises in Schenley park.

To Institute New Aerie.

A new aerie of the Fraternal Order of Eagles will be instituted at Waldorf hall, Sandusky street, Allegheny, this evening. About 150 residents of the North Side will be initiated as charter members. William M. Enright, a hotelkeeper of Allegheny, secured the credentials for the new lodge. After the installation exercises a banquet will be held.

West Liberty Safe Blown.

Burglars entered the store of Gilfallin & Orr in West Liberty borough early yesterday morning and after blowing off the doors of the safe carried away $78.50 and some valuable papers. Entrance was gained by taking out a rear window. The county detective was notified.

SUNDAY SELLERS HEAVILY FINED

Eight North Side Store Keepers Were Given Maximum Penalty at Hearings.

ONE DEFENDANT ESCAPES

Hearings were held in 20 cases brought against Allegheny storekeepers by T. P. Gamble, agent of the Allegheny County Sabbath Observance association before Justice Walker of Wilkinsburg yesterday afternoon. The suits were entered last week by Agent Gamble and in each case the defendants were charged with violating the blue laws by selling goods on Sunday. Guiseppe Guarino, an Italian fruit dealer of 716 East street, declared on oath that his store had not been open on Sundays for 12 years, and on being fined he declared he had no money and succeeded in escaping from Constable McKalip.

In eight of the cases the maximum fine of $25 and costs, amounting to $30.10, was assessed and the defendants paid their fines. Sentence was suspended in eight cases on the payment of the costs, two were held for a further hearing tomorrow morning and J. H. Simpson of 604 West Lacock street, was sentenced to 30 days to jail for non-appearance at the hearings.

Those who were sentenced to pay $25 and costs were: John Marsh of 222 Craig street; Frank Henry, George S. Merriman, 310 West Lacock street; Samuel Ferguson, manager of the Twin City Cigar factory; Lyartoto Guiseppe, 816 East street; G. Karengelen, 111 East Ohio street; J. E. Schauer, 705 East street, and John Colin, 531 Second street.

Those against whom sentence was suspended on payment of costs were Mrs. L. M. McElhaney of 632 West Lacock street; Mrs. Ada Caskey of 520 West Lacock street; Mrs. Margaret Wiggins of 701 Rebecca street and 308 School street; James Stateskis, Mrs. Cathrine Gfrer, 814 Middle street, and Mrs. J. E. Schauer of 705 East street. Guiseppe Guarino of 716 East street.

Two informations against Frank Bondi and wife of 813 Madison avenue for selling playing cards were held over till tomorrow. After the hearings G. Karengelen made informations against three of his neighbors, Athen, Gustave and Peter Antonoplos of 423 East Ohio street, for selling ice cream, soda and candy last Sunday. The cases will be heard next Tuesday at 1 p. m. before Justice Walker.

BUSINESS MEN FIGHT.

Woman Responsible for Their Appearance at Central Station.

Magistrate Vitchestain had before him at Central station yesterday morning J. W. Arrott of Sewickley and James W. Handy, a broker, who had a battle on Monday evening at Liberty and Sixth streets. Both were charged with disorderly conduct.

Mr. Arrott testified that he had been walking up Sixth street with a woman and stopped in the Hotel Anderson to buy some papers. The woman proceeded as far as Liberty street, where, she declared, Handy insulted her. When she told Arrott of it, the latter punched Handy and Policeman O'Malley arrested both of them. Handy denied that he had insulted the woman and declared he knew her intimately. Both were discharged.

SCHOOL CONTROLLER MADE CHIPS FLY

School Controller M. J. Rosenberg of the First ward, McKeesport, chopped down a high board fence on the school property in Market street. Samuel Warris of Pittsburgh, who has the contract to erect the Elks' temple adjoining the school building, it is alleged, fenced off a large portion of the schoolyard to store supplies. Controller Rosenberg notified him several times to remove the fence, but the order was not heeded and he cut the fence down yesterday.

Jews to Observe Zion Day.

Zion day will be celebrated today at Kennywood park by the Jewish population of Western Pennsylvania. The observance of this event will bring together the 20 Zionist societies in this vicinity with a membership of over 3,000. A program of athletic sports has been arranged and a baseball game will be played by Tiphereth and the Zion literary societies. Nossakof's orchestra will furnish music for dancing all day and in the evening a band concert will be given at the pavilion.

Allegheny Knights Have Good Time.

A telegram from Omaha, Neb., yesterday informed the friends of Allegheny Commandery, Knights Templar, that the latter had arrived there and all arrangements had been carried out as intended. Sir Harry Lowrie, chairman of the arrangements committee was unanimously elected to act as grand commander for Allegheny commandery at the conclave in San Francisco. Sir Oscar Schutz and his famous brass band are furnishing entertainment for the pilgrims.

Money Matters Made Trouble.

At a hearing before Magistrate Negley yesterday A. W. Linderman's wife and daughter appeared against him and testified that the man had abused them. Linderman said that he gave his wife $60 early in the week, and that she refused to give him back any of the money when he asked for it. Linderman was arrested Monday night on a charge of disorderly conduct. He was ordered to forfeit $50 or go to the workhouse for 30 days.

Dardaia Warrant Returned.

Sheriff Dickson yesterday received an order from Gov. Pennypacker withdrawing the death warrant for Reno Dardaia, who was to have been hanged Thursday. The sheriff mailed the warrant back to Harrisburg. This gives Dardaia a chance to have his case reviewed by the supreme court, which meets here October 10.

Says Schwab School Is the Finest.

George J. Golden, a school teacher and manual training instructor of Manila, visited the Charles M. Schwab manual training school in Homestead yesterday. Mr. Golden, who is making a tour of the United States, declared the Schwab school the finest he had seen in this country.

End-of-Season Sale of Girls' Summer Apparel of All Kinds

We mean to devote today and tomorrow to cleaning up all that is left of our stock of girls' and young ladies' wear for Summer. When this sale is over we will confine our future remarks to news of Autumn goods. So people who buy at the end of the season for the coming year will understand that prices will not be lower for this class of goods.

As this department occupies a place all its own in Greater Pittsburg as outfitter for young ladies and girls, showing only the most approved girlish fashions from season to season, women may safely buy now for next year. The extreme reduction we have made is the incentive we offer you to act at once.

New Tailor Hats for Women, $5.00.

Today we show for the first time a new line of popular and seasonable styles in Women's Tailored Hats. They are elegantly designed for present wear with silk or cloth suits.

These are made of metallic taffeta in a shirred tucking effect and come in black, navy, green and terra cotta. Artistically trimmed with pretty plumes, breasts and like ornamentation. Very different, indeed, from the ordinary $5.00 millinery creation.

New Plume Coque Breasts, white, light blue, brown, black, olive green and navy, the kind that won't blow apart at the first touch of a September wind, 75c each.

Military Feather Pompons, with quill ends in all the leading shades, 25c and 50c, according to size.

Made-to-Order Draperies for Doors and Windows.

We beg to call attention to the fact that our new drapery stuffs are ready for inspection in the Fifth Floor Drapery Department. People who like exclusive things in the way of hangings for windows and portieres will get many original ideas in this department.

We will not only make you an estimate of any work of this class, but will help you with our advice on any question of decoration.

New Silks and Velvets for Autumn.

For the Autumn of 1904 we have received and are now showing some of the early arrivals pointing to what will be the mode in silks and velvets. The stable plain weaves of course, but in addition many novel weaves showing the ingenuity of the artisan. And the colors and contributions of colors are most beautiful, for example the new chameleon effects. Indeed the foreign and American looms seem to have each been trying to outdo the other.

Ask to see the latest colorings in Broadtail and Mirage effects on Mousseline finished Velutina.

Our specials for today:

75c Printed Liberty Satin, an excellent quality and a choice range of designs, 38c a yard.

65c Plain Taffeta—for shirtwaist suits or dress foundations—a complete range of colorings, 50c a yard.

Yard wide Black Taffeta, a quality of silk that is bound to wear well, regularly 90c a yard, specially priced at 68c a yard.

Yard wide Black Peau de Soie, $1.85 quality, an admirable silk for coats and wraps, $1.50 a yard.

Box Couches, $15.00.

Or Wardrobe Couches, whichever name you prefer to give them. They are just the thing for den or bedroom. With a rug thrown over the top they make a luxurious couch.

Six feet long by 2½ feet wide, inside lined with cedar, and three-ply veneer bottom through which no dust can get. They are fitted with self-raising springs, making it easy for a child to open them and obviating the task of pulling away from the wall.

The upholstery is open on a woven wire foundation and covered with denim in four colorings—green, blue, red or olive mixtures.

A Cedar Chest of itself would cost this much, and would not make nearly so nice an appearance in a room.

Simplicity Sofa Beds.

These are also called Davenports. Where space is limited a piece of furniture of this kind is a boon. Equally suited for den, library, hall or sitting room. An attractive bit of furniture when closed, and a most comfortable bed when open. Much easier to operate than a folding bed. This is also an ideal piece of furniture for the sick room. In oak or mahogany, $30.00, $35.00, $37.50 and $45.00.

New Autumn Shades in Ribbons.

In Paris, and indeed all the European fashion cities, Coq' de Roche and terra cotta tones are much in evidence. This means, of course, that you'll see Coq' de Roche and all its kindred hues in Pittsburg throughout the season.

New Liberty Satin Ribbons, in Coq' de Roche, Terra Cotta, royal blue, soft gray, white, light blue, pink and olive, 5½ inches wide, 25c to 35c a yard.

Metallic Taffeta Ribbons, 5 inches wide, all the new shades, 35c a yard.

New Scotch Plaids for Hair Bows in high-class imported designs.

A Few Fine Sets of Croquet—Half Prices.

An old-fashioned game, yes, but it is rapidly coming to the front again and bids fair to be one of the most popular games for both old and young.

We have been selling Croquet Sets right along all season, and now have a few fine sets left which we will sell at half prices to clean up the lot.

$3.00 Sets, $1.50. $4.00 Sets, $2.00

$3.50 Sets, $1.75. $4.50 Sets, $2.25.

$5.00 Sets, $2.50.

Japanese Lanterns at One-Third Regular Prices.

We still have a very good selection of Japanese Lanterns, which we will sell for one-third of the prices they brought early in the season.

When prices have been reduced to such a degree it surely isn't worth while to go on using the old lanterns, after they have become defaced, as a decoration for lawn fetes or porch parties.

Wednesday, August 24, 1904.

The Gazette desires to call the attention of those of its readers who contemplate summer trips to the announcements of the many summer resort hotels published on page 12 of this issue.

Mrs. Florence Maybrick, though delighted to reach her native land again, is in no physical condition to face the public which welcomes her home. She can hardly be prepared, either, to reply to the accusations of Mr. Armstrong, who does not appear to share the popular approval of her home-coming. But those accusations can wait. If there has been any trick in securing the release of this unfortunate woman from unjust imprisonment there is not a scintilla of evidence that she was a party to it. There is ample reason to believe she should never have been imprisoned, and if she is not concerned in pending litigation it does not follow that her presence is not necessary to secure her rightful property interests.

Czar Nicholas has issued his ukase in honor of the birth of an heir to the Russian throne. It abolishes corporal punishment for the peasantry and for first offenses in army and navy, as previously announced, but includes many other concessions. Two of these are directed to Finland and one affects purchasers of government lands. To the American people these grants of royal favor may seem absurd because they have never suffered the oppressions of the czar's government, but in Russia they will be received with loud acclaim. It is just possible that Nicholas has contemplated the wisdom of these measures for some time and that recent events have made them appear necessary to him and that he has seized the arrival of an heir as an excuse for carrying out reforms calculated to stimulate the patriotism of his subjects.

After his conference with the president yesterday, Senator Lodge said he had not the slightest doubt about Mr. Roosevelt's re-election. In New England, he said, it is merely a question of the size of the plurality. Admitting that certain Gold Democrats who supported McKinley will vote for Judge Parker, he said he knew personally many Democrats who will vote for Roosevelt, and that the latter will have a large personal following independent of party politics. There is good reason to believe that Senator Lodge has thus called attention to an important factor in the campaign—the men who will vote for the president simply because they admire the force and integrity of his character. President Roosevelt is a man of vigor and of precisely the mental cast that thousands of Americans believe is needed in the executive office at this time to cope with the problems of the day.

The home-coming of Richard Croker is viewed with alarm by the followers of Charles F. Murphy, who is chief of Tammany hall through no choice of Mr. Croker. They remember that in 1897 Mr. Croker came over and quickly deposed John C. Sheehan, whose rule he did not like, and while the ex-chieftain now declares that he is out of politics for good, there are some who profess to believe that he is coming to the aid of former followers who have been relegated to the rear by Murphy. Mr. Croker will find Tammany badly in need of his services, if it is to continue the great political power of New York. The battle between Murphy and McCarren for the control of Brooklyn has badly disrupted the organization, and even if Croker does not intend to dethrone Murphy, he will have a strenuous time bringing peace to the wigwam in which he was so long the chief figure.

Mr. Henry C. Ide, secretary of finance of the Philippine government, reports to Washington that the new currency based upon the gold standard is well received in the islands, the business men giving the government every possible assistance in making the change. Mr. Ide predicts that the debased Mexican silver will be entirely eliminated by the end of the year. This is a most remarkable achievement. When the United States officials began this currency change there was $40,000,000 of the debased currency in the islands, and this promises to be wholly eradicated within a year after the effort began. Not only the business men but the people in general are now showing their preference for the currency based upon the gold standard. Prices have been adjusted to the new standard without trouble, and the rate of exchange with Hongkong is at par. The rapidity with which the people of the Philippines have accepted the currency change is but another evidence of their growing confidence in the government of the United States, which in itself is extremely gratifying.

One More Step.

By a peculiar error the administration forces failed to complete the passage of the bond ordinances yesterday, though they had secured the necessary majority by strenuous work. There is, however, little or no hope that this will entail anything more menacing to their plans than a day's delay and possibly an additional expense. It appears possible to get a vote or to procure the absence of a member at a critical juncture by some means when absolutely necessary.

The exhibition throughout has not been an agreeable one, though it may be regarded as instructive. The slow but forced passage of the measures has subjected them to the full glare of publicity and their defects are known of all men. It may be taken for granted the winning over of votes in the face of increasing popular disapproval has not been an easy task, for every member of council must have paused to consider the danger of citizens making note of his action for future reference.

If there was any possibility that completion of the filtration plant might be hastened by the adoption of this ill-advised and extravagant method of disposing of the bonds that would be some consolation. But the contrary is most likely to be the result. If the advantage to somebody of having this large sum on deposit is great enough to justify the strenuous effort by which it has been forced through, it is apt to be an inducement to delay the time for drawing upon the fund to give the people the benefit of purified water.

Russia Remains Obdurate.

The Shanghai situation has not cleared as the dispatches of Monday indicated it might. The declaration of the admiralty at St. Petersburg that the Russian vessels would be obliged to disarm has not been given official force by orders to that effect, though the time limit set by the taotai at Shanghai has expired. The Askold has not been put in seaworthy condition and no move has been made toward dismantlement. The government at Pekin has taken no action upon the reference of the whole question to that quarter by the foreign consuls at Shanghai and another conference of the consuls was void of result yesterday.

Russia's utter disregard for Chinese authority is not more irritating to China itself than to Japan and there is apprehension that the latter may resort to violent means, as it did at Chefoo.

The attitude of Russia is an unquestionable violation of the neutrality of China, for the Russian vessels at Shanghai are obviously using the neutral port in preparation for hostile operations. When the British ship Osiris was held up in the Red sea last spring and searched by the Russian gunboat Pabri, the right of search was freely admitted, but the authorities held the Pabri had no right to sally from a neutral port to prey upon commerce and return to a neutral port afterward. Having obtained coal for a voyage to a home port it was in duty bound to proceed. The Russian position at Shanghai is precisely such a violation of neutrality, but of far more flagrant character. It is explicable in two ways—either it is intended as a provocation to Japan to do violence that would meet the disapproval of the world powers, or is an evidence of the inability of Russia to recognize its international obligations. Not only is its course in violation of the ordinary neutrality of China, but it is in violation of the express promise to Secretary Hay that the neutrality of China should be scrupulously observed throughout this war. Japan promised to respect Chinese neutrality "if Russia would do so," but Russia promised without conditions.

Since the foreign consuls have been generally instructed to confine themselves to the protection of the interests of citizens of their respective countries the onus of protecting its neutrality falls upon China. Unless it takes measures to enforce its orders against the Russian warships it is responsible to Japan for its failure, and if Japan should send a squadron into the harbor to engage the Russians, China will be liable for all damages done. In fact, China's weakness remains a menace to the peace of the world. It has caused the present war between Japan and Russia, and unless the present situation is adroitly handled it may involve other powers in hostilities. Yet the responsibility resting upon Chinese incapacity is no greater than that resting upon Russian obstinacy. Russia apparently invites the disturbance of the reopening of the Chinese problem so eloquently depicted by Count Cassini in connection with the Ryeshitelni incident at Chefoo.

Is It Good Policy?

There has been some discussion of the question whether Japan can be justified in its wholesale sacrifice of men in taking Port Arthur by assault. Authorities differ and the subject is fairly debatable. We incline, however, to regard the Japanese policy as wise. It had the alternatives of assault or a siege that would probably last a year or more. By siege the fortress might be secured without much bloodshed, but not without great loss of life. During a year many things might happen to disarrange plans that even the enemy admits the Japanese have laid well.

During our own civil war we had examples of both methods. Each had supporters and each fierce critics. Gen. McClellan exemplified the waiting policy on the road to Richmond and history tells how many thousands of his men died from camp fevers, homesickness and the ills inseparable from the maintenance of armies in the field, and particularly armies partly idle. Gen. Grant exemplified the other method at Petersburg. He was denounced as a "butcher" and accused of needlessly sacrificing his men when he might have starved the confederates out. We believe that Gen. Grant's policy has been more than justified and that every candid reader of history must compare it favorably with McClellan's course, which was intended to be humane.

We believe history will justify the Japanese aggression in the same manner. Though the losses in battle are reported to exceed 28,000 up to the beginning of the assault of this week, they probably little exceed in actual deaths what would result from camp diseases during a year's siege. The Russian losses, heavy as they may be, are not as great as would result from a year's confinement, part of the time on short rations and amid unsanitary conditions. If the fortress is soon taken the military advantage of the aggressive course will be tremendous. The besieging troops will be made available for the interior campaign; another base and a railroad line of communication will be acquired; the Japanese arms will have won an invaluable prestige; and, finally, Russia will be dislodged from its position on the Yellow sea—the principal cause of the conflict.

The question really resolves itself into another. Will the Japanese succeed? If they do the sacrifice will be justified. If they do not, it cannot be. We believe Japan has never had any doubt about its ability to take Port Arthur by assault and that it will carry out its military plans as conceived before the first blow was struck. That sort of success will justify anything from a military point of view.

Hope for Missouri.

The continued factional fighting in Missouri is likely to result in a break in the ranks of the solid south which will record Missouri's electoral vote for Roosevelt and Fairbanks. With two sets of candidates on the same ticket lined up against each other in fierce battle a larger majority than the Democrats of Missouri have had recently might easily be reversed. The nomination of Joseph W. Folk was a slap at the entire Democratic machine, for his whole campaign was based upon a platform that required him to tell some very plain and unwelcome truths about the men who have been running the state for a generation. At least two of these men, former State Chairman Cook and Attorney General Crow, are now on the ticket with him, and that they do not relish the position in which they are placed is indicated by the silence with which they greeted the challenge Senator Stone delivered to Mr. Folk to tell the events which transpired before he secured the nomination. Mr. Folk declares that he had no deal with the other candidates. Cook and Crow both decline to affirm or deny his statement. They want the offices for which they have been nominated, and they fear that further stirring of the factional fight will result in their defeat.

The Democrats of Missouri, by their insistence upon the nomination of Mr. Folk for governor, gave the strongest possible evidence of their desire for a change in the management of the state's affairs. But this seems to have been entirely nullified by the nomination of members of the old and corrupt ring on the same ticket. As a result Mr. Folk's hands will be tied if he endeavors to keep his campaign pledges. No one can question his honesty, but that will avail him nothing if he is tied down by official colleagues who will throw every possible obstacle in his way to prevent the redemption of his promises. This condition will draw many votes from the Democratic ticket, for we believe the people of Missouri honestly desire that the politics of the state be purified. They will naturally look to the Republicans, who have named a ticket against which there can be no question raised, either of competency or fitness. Former Mayor Walbridge of St. Louis is a business man who entered politics wholly from a patriotic sense of duty. He gave the city of St. Louis a clean and capable administration, and his record in that office alone should draw him hundreds of votes from the better element of the Democracy.

The Republicans of Missouri have never been in better form for a winning fight than this year, and they are making a special effort to redeem the state from the misrule of the Democratic bosses. The aid which the factionalism on the ticket named by the Democrats is giving them brings a hope that the solid south is at last to be broken by the reclaiming of one of its strongest positions. And once the line is broken there will be a fighting chance for Republicanism at other points.

The president went horseback riding with Senator Lodge yesterday, while Judge Parker took the same sort of exercise with Judge Hulsople. Thus the day's political developments are equalized.

Yesterday's weather is not to be taken as an indication that the guests of the Merchants and Manufacturers association are being given a cool reception.

Since a Philadelphia physician declared that copper kettles are death to typhoid germs, the city might spend that $5,000,000 for kettles.

All the powers seem anxious to have the United States do their work in maintaining the neutrality of China.

River bathing may be stopped because it is obnoxious to persons who go rowing. Why not stop the rowing?

The Tammany tiger seems to have succeeded in sneaking under the tent of the Democratic circus.

When Port Arthur really falls the Chefoo correspondent will have to seek pastures new.

Only their generosity prevented the Pirates taking both games yesterday.

The silence of Mr. Cleveland would indicate that the fish continue to bite.

John G. Carlisle visited Esopus, and a cool wave immediately developed.

China is a land of trouble these days.

Mrs. Maybrick is welcome.

Talked of in Gotham

[By Private Wire to The Gazette.]

NEW YORK, Aug. 23.—Despite the fact that many New Yorkers are still in the country, the local population is greater than it has been for many months and all on account of the great influx of summer visitors. From north, east, south and west the out-of-towners have descended upon New York, and all the hotels are crowded. For a day or two the hotelkeepers did not know what to make of it, and then the idea slowly percolated. In addition to the usual southern summer visitors the town holds the second section of the Merchants' association country buyers, an avalanche from the Grand Army reunion held in Boston last week, foreigners on their way to and from the St. Louis fair and folks who have spent part of their vacation at the seashore and are stopping over a day or two before going to the mountains. Then there is the great crowd which came to spend vacations in New York.

"We are turning away between 50 and 100 persons every night," said a clerk in one of the city's oldest hostelries today. "We are doing the best we can to give everyone a room, but this rush rather took us off our feet." At other hotels similar views were expressed. Sightseeing automobiles, carriages and boats are crowded. Aboard every vehicle eager questioners assail the guides and points of interest are spotted long before the "lecturer" gets to them.

Regulating the Girls' Drinking.

Bishop Potter's pet enterprise, the subway tavern, has attracted one class of customers whose thirst for alcoholic drinks is to be discouraged if possible by publicity. There have been severe criticisms from the temperance advocates since they discovered that young women and girls employed in the factories near the tavern were walking up to the soda water counter and ordering beer and other stimulants. Consequently the manager announces that as soon as the rathskeller or lounging room that is being constructed in the basement of the tavern is completed, the girls will not be able to procure their beer disguised as soda water, but must go to the lounging room for it, and will not be admitted to that apartment unless accompanied by male escorts. The lounging room will have a door connecting it with the underground railroad station nearby.

Because of the impetus given the subway tavern by Bishop Potter's indorsement and his religious dedication, the patronage has been so large and the sales of liquor so profitable that several propositions have been made to the management by capitalists to open similar places. These offers are being considered. Generally the idea is to take existing saloons and improve them, or run them along the lines of the subway tavern.

Grasshoppers for Their Medicine.

Not since William S. Devery's "bugs of New York" had their wings clipped by Tammany and Mayor McClellan, has a more novel campaign device been seen than that adopted by the followers of Isaac A. Hopper, the Tammany leader of the Thirty-first assembly district. Lewis A. Abrams is making a hot contest for the leadership. The Hopper men have adopted the grasshopper as their emblem and are preparing to distribute 5,000 live grasshoppers in gelatine capsules on the occasion of Hopper's picnic to the people of the district on Thursday evening. Each capsule is to be accompanied by the following card:

"Sure cure for 'big head.' Hopper's capsules. (Ike or grass.) Directions for use: Before retiring take one capsule in sugared water; the gelatine readily dissolving will release the grasshopper, and he will immediately proceed to kick. Second dose never required." Small boys have been collecting the grasshoppers for weeks, and until they are placed in the gelatine capsules for circulation among the voters previous to the primaries, an "insect committee of three" has been appointed to feed them and keep them alive.

"L" Strike Is Averted.

Relief came to anxious Harlemites and trans-Harlemites today with the news that after all there would be no strike among the employes of the Manhattan elevated lines, the threatened trouble having been averted through the diplomacy of August Belmont, the principal stockholder. The men represented that promises to give preference to "L" trainmen and other employes in manning the new subway controlled by the company had been ignored. At a conference this afternoon the elevated trainmen received satisfactory assurances that their claims would be considered, and that they would have preference over new applicants in every case. The rule of seniority in the service will be applied in appointing men to positions on the underground railroad who are at present at work on the elevated road.

Two Kite Flyers Killed.

The combination of the kite season and a brisk wind caused the loss of two lives today in widely separated sections of the city. In West Forty-second street Alfonso Humbert, nine years old, was flying a kite from the roof of a five-story house. He had unwound all the string and remarked that the kite pulled "awfully hard." Soon after he was seen to fall from the roof and was dead when the spectators reached him. In Brooklyn eight-year-old Willie Moylan tried to fly his kite from a high roof. There was not much room for a run to give the kite a start, and the little fellow was unable to raise it much above the level of the roof. At last the kite caught a favorable slant of wind and soared upward. The boy let out the string rapidly, moving backward as he did so. Intent on his sport, he stepped to the edge of the roof, stumbled against the cornice and fell to the sidewalk. The fall killed him instantly.

Courtesy Cost His Life.

New Yorkers in this decade of congested transportation are less given than formerly to surrendering their seats in the cars to the women folk, and will not be encouraged by the fate of James Needham, a tinsmith, who died this morning in the J. Hood Wright hospital, as the result of a fractured skull received when thrown from an Amsterdam avenue car. Needham, seeing a woman standing, gave her his seat. Then he sat on the guard rail and another car passing on the curve knocked him off. He was unconscious when picked up, and never regained his senses. His home was in Scranton, Pa.

Odds Offered on Roosevelt.

Election betting, which has been quiet on the curb for a week, took a new impetus today when a stock exchange house put on the tickers an offer to bet on Roosevelt at 10 to 6. Ten to seven has been the prevailing odds heretofore. This house offered $2,000 to $1,200 in one or two bets.

A Rare Specimen

THE STROLLER.

Eureka! She is found! The woman who admits when she is wrong.

Where? Why in the Carnegie institute of course. The place where they preserve all rare and valuable specimens. Yes, Carnegie institute, "purveyor of diplodocus to his majesty." I discovered her yesterday. Searching for literary food I sought the library and after looking over the card catalogue carefully found something to my fancy. I recorded the string of incomprehensible figure and letter combinations by which the books are identified on the slip provided for that purpose and marching up to one of those polite attendants handed in the slip with my neatest smile.

She returned shortly with two volumes under her arm, remarking:

"You certainly have the wrong numbers. These are the nearest I can find to what you want."

"They hardly suit my purpose," I stammered, overcome by my apparent negligence in copying the numbers correctly, "I feel sure I got the numbers right, but I'll look again."

"Just a moment," interrupted the little miss, as she hurried back.

She returned in a moment while I noted the crimson glow on her countenance. Laying a book before me, she exclaimed:

"Here it is. I had looked for it upon the wrong shelf. Your numbers were right. I was wrong."

Oh, these sudden showers—how much of human nature do they reveal! On a Bloomfield car Monday afternoon, the storm came on about Craft avenue. The passengers sitting on the front seat promptly got up and came inside—all except one young woman in a tan pongee frock and a big rose-wreathed hat. She moved over so as to be as much sheltered behind the motorman as possible, and there she sat. The rain was coming down in sheets by the time the car got to Brady street, still the lady did not budge. At Smithfield street the rain had nearly ceased and most of the departing passengers took a look at the girl who had stayed outside. She was wetter than the proverbial rat—and evidently quite indifferent. She was not exulting in the storm or enjoying it. She simply sat there, and the car took her out of sight, wet—oh, so wet—her hat dripping rain all round the brim. One big colored woman looked at her curiously as she got off.

"H'm, honey," said she, "some folks is pow'ful quare."

The small boy of the family, aged five, was playing with his ball. His mother watched him throw it up and thought she would puzzle him with a question or two.

"See here, Tommy," said she, "why is it your ball comes back when you throw it up in the air? Why doesn't it go straight on?"

The youngster looked at her scornfully.

"It has to come down," he explained, pityingly, "I—I throw it in a curve."

A small boy who lives on one of the short cross streets just off North Negley is very fond of one of his mother's friends, Miss Margaret, who lives a block or so away in North Negley proper. He often pays lengthy calls and the entertainment provided is one of the joys of his life. The boy is, by the way, four years old, and not very big for his age. The other afternoon he had stayed late and was asked to dinner. After dinner Miss Margaret volunteered to take him home. They reached the street where he lived and Miss Margaret said:

"Well, you can go the rest of the way by yourself, for it is only a step."

The little fellow looked down toward his home through the twilight.

"No, Miss Margaret," he said, firmly, "you'd better come with me. You see, I might run into somebody and hurt 'em."

In order to protect the casual passerby, Miss Margaret went.

FABLES FROM THE NEWS.

The Admiral from the Land of the Rising Sun was seen pacing the Deck of a vessel with a name like a Pied Line in a Japanese paper, wearing a Dejected Look.

"Why this Discontent?" inquired the Captain of the Ship.

"I am just beginning to Appreciate how Alexander Felt when he Discovered that he had No More Worlds to Conquer."

And the Captain could find no Word of Consolation for his Chief, but handed him a Newspaper Containing a Rumor that the Baltic Fleet had Sailed Eastward.

The Death Roll

Richard S. Waring.

Richard S. Waring, founder of the Standard Underground Cable Company and for many years a prominent resident of Pittsburgh, died yesterday afternoon in Elmira, N. Y., after an illness of several years. Mr. Waring for several years past made his home in Elmira. He was born in Saratoga county, N. Y., in 1833, and came to Pittsburgh in the early '60's and became bookkeeper in the Citizens National bank and afterwards with F. Sellers & Co., in the drug business. He later entered the oil business and became well known as a member of the firm of Waring & King in the production and refining of oil. Mr. Waring was afterward a member of the firm of Waring Bros. & Co., and R. S. Waring & Co. They operated the Vesta oil works and the Cosmos oil works, their own property, and held a number of others under lease, all in and near Pittsburgh. They had large docks at Point Breeze, Philadelphia, and offices in both cities. Their business at home and abroad was large and for a time they were the chief competitors of the Standard Oil Company, to which company their plants and business were eventually sold. Mr. Waring was also prominent in the political life of Pittsburgh in the '70's and was for a number of years chairman of the Republican county committee and a close friend of the late C. L. Magee. Mr. Waring founded the Standard Underground Cable Company in 1882 and it has since become one of the largest companies of Pittsburgh and the largest of its kind in the country. The interment will take place in the family lot in Allegheny cemetery. He is survived by his widow, one son, Tracy D. Waring, and one daughter, Mrs. James Robinson; also by two brothers, O. T. Waring, of the Standard Oil Company, and E. J. Waring of the Standard Underground Cable Company, and one sister, Malvina Waring.

Sister Vincenta Rogalski.

Sister Vincenta Rogalski, mother superior of the Home of the Holy Family of Nazareth, the Polish orphanage at Emsworth, died at 6:30 o'clock last evening, after a week's illness of pneumonia. Sister Vincenta was born in Poland 36 years ago and came to America with her parents when 16 years old. She entered upon her novitiate three years later. She had since been successful as a teacher in different cities. She came here from Brooklyn a year ago to take charge of the home at Emsworth. She is survived by her parents, a brother, the Rev. Stanislaus Rogalski, rector of St. John's Catholic church in Chicago, and a sister, Sister Janina, all of whom reside in Chicago.

Ralph W. E. Newlin.

Ralph W. E. Newlin, aged 21, son of T. F. Newlin of McKeesport, died yesterday morning at the McKeesport hospital of typhoid fever. He was taken ill about three weeks ago and went to Mountain Lake Park, but grew worse and returned home. He was employed as a clerk in the banking department of the McKeesport Title & Trust Company. His home was at No. 401 Ninth avenue, McKeesport, where funeral services will be held at 2 p. m. tomorrow. Interment will be made at Versailles cemetery.

Mrs. Ellen Dronesfield.

Mrs. Dronesfield, aged 77, widow of William Dronesfield, died yesterday morning at the home of her daughter, Mrs. Mary E. Tyler, near Johnstown, Pa. Mrs. Dronesfield was a native of England and came to this country in 1841. She was a former resident of this city. She is survived by five children, Mrs. Sarah Roberts and William Dronesfield of Braddock; Thomas Dronesfield of Johnstown; James Dronesfield and Mrs. Mary E. Tyler of Dale, Pa. She was a member of the Methodist church. Mrs. Dronesfield had relatives in Braddock.

Funeral of Mrs. Elizabeth Jones.

The remains of Mrs. Elizabeth Jones will be buried from the home of her granddaughter, Mrs. W. W. Cupps, No. 1832 Middle street, Sharpsburg, this afternoon. The remains arrived in Sharpsburg yesterday from Alton, Ill., where Mrs. Jones died on Saturday. She was a former resident of Sharpsburg, and is survived by two daughters, Mrs. Elizabeth Nixon of Alton, and Mrs. Elmira Hess of Allegheny. Mrs. Jones was aged 99.

Mrs. Addie D. McFarland, aged 71, of Harrisburg, Pa., widow of Col. George F. McFarland, died at the home of the Rev. M. E. McLinn yesterday at Apollo. She is survived by her daughter, Mrs. E. M. Wharton of Harrisburg, and two sons, Horace and George D. of Harrisburg.

Of Course, Belmont Will Be There.

According to a New York newspaper Chairman Taggart has announced that Mr. Belmont will have a room at Democratic headquarters. The announcement was not necessary. Everybody knows that Hill and Belmont are assisting Sheehan to run the Democratic canvass, and that Mr. Belmont, the American representative of the Rothschilds, is the Democratic banker. The only wonder is the effort to suppress that information.—Philadelphia Press.

BUSINESS FLOWS TO LOCAL FIRMS

Merchants' Excursion to Pittsburgh Proving a Revenue-Producer of Much Value.

BIG ENTERTAINMENTS TODAY

Wholesale merchants, manufacturers and bankers of this city yesterday began to experience something of the full value of the special excursion of outside business men to this city, arranged by the Merchants and Manufacturers' association. At many places of business there was an air of activity that bespoke increased revenue. One firm wrote to Manager Wardrop, giving a list of 24 new customers. At the headquarters of the association in the Keystone building, there was an almost constant procession of arrivals. In the evening the wholesale lumber dealers of this city initiated the social features of the week.

Milliners continue in much prominence among the arrivals, nearly all the wholesale concerns in that line having arranged for their openings to take place this week. This fact brought it about that many women are included in the list of visitors and they have been unusually busy for the past two days here.

Today is to be the big day of the week. This afternoon many of the visitors expect to attend the Pittsburgh-Philadelphia ball game, as the guests of members of the association. In the evening the theater party at the Grand opera house will take place and following that there will be a luncheon and reception at the Hotel Henry.

All the indications point to the arrival of many hundred visitors on account of today's events. The merchants here have arranged for entertaining all who call. The traveling men are at the stores to meet their regular customers and in general all is in readiness.

The dinner given by the Pittsburgh Wholesale Lumber Dealers' association at the Hotel Henry, last evening, proved a very successful event. After the disposal of an elaborate menu many speeches were made by representatives of the wholesalers, the retailers and the traveling men. R. D. Baker, president of the Lumbermen's association, was toastmaster. Over 100 persons were present.

Among those who registered yesterday at the headquarters of the "M. & M." were the following:

J. A. Atlee, Tyrone; J. W. Neff, Archie Gordon, New Castle; F. S. Armstrong and party of four, Tyrone; J. H. Pifer, DuBois; Gertrude Brown, Conneaut Lake; Mrs. Lena Anthony, Marietta, O.; I. E. Zaiser, Canton, O.; S. M. Copeland, Eva Stewart, Smithfield, O.; J. A. Doversbike, Fairmount City, Pa.; James F. Kittie, Toronto, O.; E. L. Fleming, Cadiz, O.; James M. Aubrey, Monaca; George L. McKim, Steubenville, O.; S. V. Host, Jewett, O.; S. Hurkins, G. Hurkins, Martins Ferry, O.; Louis Crane, Williamsburg, Pa.; W. M. Moron, Joseph Brown, Mrs. Gracie Brown, Grove City; R. D. Howard, Franklin; August Steckel, Mill Run, Pa.; Alice Travis, Miss Don McDonald, Salem, O.; J. M. Dick, Mercer; Leia Gottfried, Upper Sandusky, O.; W. C. Bailey, C. M. Bailey, Cleveland, O.; E. B. Goodlin, Toronto, O.; Mrs. B. L. Tracy, Miss Lou Carl, Wheeling, W. Va.; J. D. Martsolf, New Brighton; Mrs. C. H. Rea, New Matamoras, O.; Mrs. W. A. Henry, Brookville; Miss S. A. Knoke, Wheeling, W. Va.; H. E. Rinard, New Matamoras, O.; Miss Cochran, Waynesburg; L. Wyland, Spangler.

SERGT. METZ MISTAKEN FOR A HITCHING POST

Man Who Made the Error Will Be Obliged to Answer to Charge This Morning.

Because Adolph Metz, formerly of West Newton, Pa., is a real live police sergeant instead of a hitching post, William McMackin of Allegheny is a prisoner in the Central police station. Sergt. Metz was dressed for the theater last night and stood at the Cherry alley door of the station, when unluckily McMackin drove up the alley and took the license to tie his horse to the dignified sergeant.

"Look here, Sandy, I'm no post," said Metz.

The man with the horse paid no attention to this, but quietly threw the hitching strap around the neck of Metz.

"Hold on!" exclaimed Metz.

"Whoa!" said McMackin.

"It's a horse on me," added Metz. "I'll stand for it not a minute yet."

There was the sound of a scuffle in the hallway and Metz came into the station with a prisoner.

"What's the charge?" asked the sergeant on duty.

"Drunken—disorderly conduct," added Metz.

It will be up to the magistrate this morning to decide whether or not the sergeant from West Newton is a post.

Dudley M. Pitcock, superintendent of the Demmler tin plate works near McKeesport, was pleasantly surprised yesterday by the employes of the plant. He was called to the office, where a large number of workmen were assembled, and presented with a handsome suite of leather furniture. The gift was taken to the residence of Miss Nettie Wallace, who is to become Mr. Pitcock's bride this evening.

PROUD OF SAVING RUSSIAN WOUNDED

Japanese Surgeons Point to Low Mortality Rate Among Their Captured and Injured Enemies.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

BOSTON, Aug. 23.—The American board has received from Rev. Sidney L. Gulick of Matsuyama, Japan, a report of misionary work, which states that more than 1,200 Russian prisoners have been brought to that city. The prisoners are quartered in several large temples, are lightly guarded and are given unusual liberty for prisoners. Some are permitted to walk around town with a small guard and even to go for baths in the sea and to Dogo, the mineral hot springs, a mile east of Matsuyama.

Special buildings have been erected on the drill ground north of the city for use as a hospital, where some 600 wounded have been or are being treated with the best care the country can provide. Out of the total number treated only five have died. Many cases have been terrible, and the chief surgeon apparently takes great pride in the showing. He attributes it to the special character of the Japanese rifle, the general adoption of which he urged on the authorities five or six years ago on the score of the humane nature of the wounds it inflicts, disabling and not killing.

GEORGE B. HILL & CO. GET EXECUTION AGAINST DAVIS

Well-Known Employe of Pittsburgh Brokerage Firm Figures in a $17,665.64 Judgment Note.

An execution in favor of George B. Hill & Co., brokers, against Arthur Davis, until recently one of the principal employes of that firm, was issued yesterday by common pleas court No. 2 on a judgment note of $17,665 64.

Mr. Davis has been connected with the Hill firm for many years and is one of the best known members of the Pittsburgh stock exchange on the floor of which he had been a representative of George B. Hill & Co. Last week he resigned as a member of the board of directors of the exchange. He has not been transacting business on the floor for some weeks past and his seat has been posted for transfer for a couple of weeks.

Mr. Davis said last evening that he did not care to make any statement on the matter and no statement would be made for George B. Hill & Co. except that of their counsel, A. M. Neeper, who said that it was simply a case of the collection of a judgment note.

VICTORY LOST BY BLUNDER

Continued from First Page.

city, he will be brought to the city hall today.

Mayor Hays has not returned to the city. He is at Atlantic City and has given his office over to the politicians lobbying for the bond and traction ordinances. It is in his office that the star plays are made by the leaders and where obstinate councilmen are brought to terms. As soon as the bond ordinance is finally disposed of the administration will direct its attention to the traction ordinances of the Pittsburgh Railways Company. The members whom the administration has lined up for the bond ordinance are said to be pledged also for the traction ordinances. These bills will probably go through with greater ease than the bond bill, despite the opposition of the Hall syndicate, which has been lobbying among the members of select council.

Hall People Over-Confident.

Thus far the Hall syndicate has succeeded in having the bills of the Pittsburgh Railways Company referred to a special committee, but this was done only because the administration made no contest. It is the purpose of Bigelow and Verner to get the bond ordinance through first and not to complicate matters by stirring up a fight on the floor of select council over the trolley bills, while the contest over the bonds is pending. The Hall lobbyists claim they control the situation in select council, but Bigelow and Verner only smile at these claims.

At yesterday's meeting Lang and Schlernitzauer, who shifted the day before, stuck to the administration. The absentees yesterday were Cavett, Friedman, Howarth, Thomas O'Brien and Zollinger. The administration workers claimed they had kept Cavett, Howarth and Friedman away. O'Brien, who came from St. Louis to attend the meeting on Monday, returned to St. Louis Monday night, not anticipating the meeting yesterday.

HELD FOR WIFE MURDER.

Daniel McCarthy of Allegheny Must Answer to the Grand Jury.

Daniel McCarthy, who formerly lived with his family at 714 South avenue, Allegheny, was held by the coroner yesterday for the grand jury on a charge of murder.

Mrs. Nellie McCarthy, the man's wife, died at the Allegheny General hospital on June 25 last from injuries that she said were inflicted by her husband. On the night of June 21 she was found in the South avenue house alone and delirious. At the hospital she said her husband had beaten and choked her before leaving the house. Magistrate Abernathey took the woman's statement the day before she died, in which she charged her husband with brutally assaulting her. Dr. Walter McCandless, who made the post-mortem examination, testified that there were marks on the abdominal wall and that her death had been caused by violent shock.

McCarthy disappeared after removing the furniture from the South avenue house and returned several days ago, giving himself up to the coroner.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

It is alleged that he failed to take out a state and city license and he was held on this charge. Bechtel was held in Central police station in default of $1,000 bail.

Mr. Otto A. Fleissner's KIDNEYS WERE SOAKED WITH CATARRH.

Pe-ru-na Promptly Cured Him.

Mr. Otto A. Fleissner, Rainer Grand Hotel, Seattle, Washington.

Mr. Otto A. Fleissner, American Epicurean, late Chef to Col. W. J. Cody, (Buffalo Bill), now chef at the Rainer Grand Hotel, Seattle, Wash., writes:

"I suffered with kidney and bladder trouble until life did not seem worth living. I had tried many medicines, but did not get any relief until I took Peruna. It was really wonderful how much better I was after I had used this medicine only a week. I did not expect that it would help me permanently, but as long as it was doing me good I continued to use it. At the end of six months I found to my relief, that it had rid my system of all poisons, and that I was cured to stay cured. You certainly have a splendid medicine and I gladly indorse it."—Otto A. Fleissner.

Catarrh of the Kidneys a Common Disease—Kidney Trouble Often Fails To Be Regarded As Catarrh by Physicians.

Catarrh of the kidneys is very common indeed. It is a pity that this fact is not better known to the physicians as well as to the people.

People have kidney disease. They take some diuretic, hoping to get better. They never once think of catarrh. Kidney disease and catarrh are seldom associated in the minds of the people, and, alas, it is not very often associated in the minds of the physicians. Too few physicians recognize catarrh of the kidneys. They doctor for something else. They try this remedy and that remedy. The trouble may be catarrh all the time. A few bottles of Peruna would cure them.

PE-RU-NA CURES CATARRH OF THE KIDNEYS.

Pe-ru-na Removes the Cause of the Kidney Trouble.

Peruna strikes at the very center of the difficulty by eradicating the catarrh from the kidneys. Catarrh is the cause of kidney difficulty. Remove the cause and you remove the effect. With unerring accuracy Peruna goes right to the spot. The kidneys are soon doing their work with perfect regularity.

Thousands of Testimonials.

Thousands of testimonals from people who have had kidney disease which had gone beyond the control of the physician are received by Dr. Hartman every year, giving Peruna the whole praise for marvelous cures.

NEWS OF THE NEARBY TOWNS AND COUNTRY

ATTEMPT TO BLOW UP GATES OF RESERVOIR

Town of St. Marys Narrowly Escaped Fate of Johnstown—Bloodhounds Are on the Trail.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

ST. MARYS, O., Aug. 23.—An attempt was made today, by unknown persons, to blow up the gates at the head of St. Marys reservoir with dynamite. Fortunately the charge of dynamite was not sufficiently large to destroy the masonry or to displace the heavy gates.

There has been much ill feeling among the people living in the vicinity of the reservoir owing to the widespread belief that the banks of the big body of water are not safe, notwithstanding the state has spent large sums of money during the past year in strengthening the earth works. Had the object of the miscreants been attained today, the town of St. Marys and the adjacent valley would have been swept by a most destructive flood, causing enormous loss of life and property.

Although the damages are limited mostly to broken windows in this city, there is great excitement, because it is feared that the attempt may be repeated. The charge of dynamite and nitroglycerin was placed on the wicket gates and a slow fuse attached, from which there were three separate shocks. The occupants of Alexander Swegart's house were buried under the debris for three hours. The captain of the state boat and his wife and helpers were rescued by other craft.

The bulkhead is the outlet of Lake Mercer into the Miami and Erie canal, and holds back nine feet of water covering 17,000 acres of land. St. Marys is 12 feet lower than the lock, and the loss that would have accompanied the success of the attempt is hard to imagine. The explosion was plainly heard for 20 miles.

Bloodhounds are with those who are searching for the dynamiters, but there is no tangible clue on which to work.

LONG LOST BROTHER IS CHARGED WITH MURDER

Strange Meeting in Jail of Men Separated Since Youth—Indicted for Killing Turnkey Condo.

[SPECIAL TELEGRAM TO THE GAZETTE.]

FREEPORT, PA., Aug. 23.—Perry Dillon of this place went to Bellefonte last week and there met a young brother whom he had not seen since boyhood. He was startled to find his brother in the Bellefonte jail on the charge of breaking jail and being implicated in the killing of Turnkey Jerry Condo.

Dillon read of the jail delivery and seeing the name of Dillon investigated, thinking the man might be related to him. He was startled to find his own brother when he was admitted to see the prisoner. Young Dillon claims he was arrested and jailed for a crime early in life and put in a cell with old prisoners. He claims this led to his downfall. Dillon made a confession of his part in the murder of Jerry Condo to his brother.

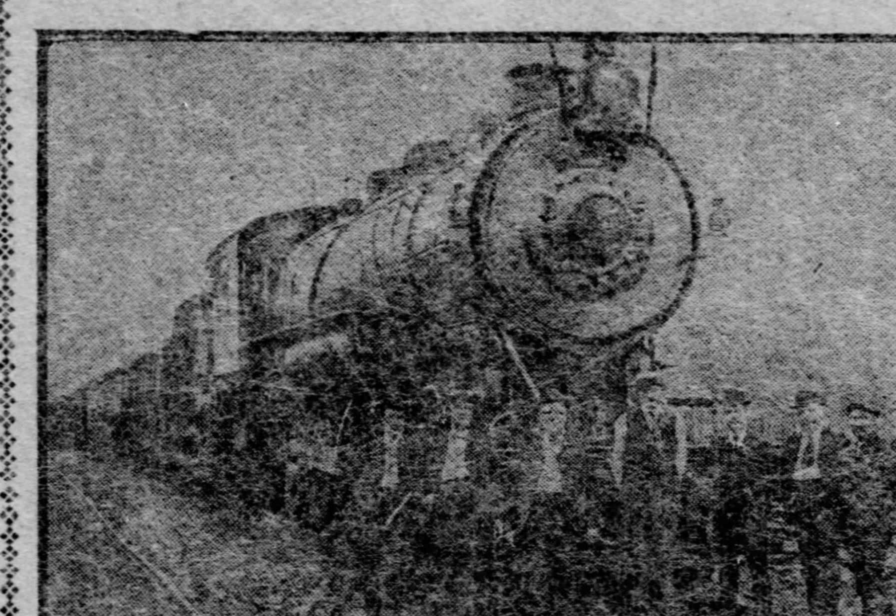
Locomotive Which Breaks All Records for Freight Hauling.



YOUNGSTOWN, O., Aug. 23.—(Special.)—Engine No. 1006 of the Jamestown and Franklin division of the Lake Shore has broken all records for heavy hauling of freight between this city and Ashtabula. The tests have been on for the past week. The first run was made from Ashtabula to this city, with 70 cars, hauling 5,000 tons. On Thursday of last week the engine drew 84 steel hoppers from this city to Ashtabula carrying 5,588 tons. On Saturday the train it drew from this city to Ashtabula had 95 cars and a gross tonnage of 6,063. Monday the engine started out of here in a driving storm which amounted to a cloudburst and pulled into Ashtabula with 100 steel hoppers loaded with coal and having a gross tonnage of 6,762 tons.

The haul was made over the new low grade road which has been recently opened for the Lake Shore ore and coal traffic. Assistant Superintendent D. C. Moon and Master Mechanic Dickerson saw the feat performed, accompanying Superintendent D. T. Murray of the Jamestown and Franklin division, who is making the tests for the benefit of the road.

The engine is a Brooks, type C. Its total weight is 235,000 pounds; 200,000 pounds on the drivers and 35,000 pounds on the pony trucks; cylinder, 23x30 inches; steam pressure, 200 pounds; weight of tender, with coal and water, 78 tons.

SENATOR CAMERON PLANS INDUSTRIAL UTOPIA

Will Build a Model Municipality for Working People Near His Country Place.

[BY PRIVATE WIRE TO THE GAZETTE.]

HARRISBURG, PA., Aug. 23.—A model industrial town is being planned by ex-United States Senator J. Donald Cameron at his country place, Lochiel, just beyond the southern limits of the city. With the almost certain passage through city councils of pending ordinances work will be started.

The general scheme of the utopian town is similar to those of the National Cash Register Co., at Dayton, O., the pottery works at East Liverpool, O., and the Pullman Company, at Pullman, Ill. Wide avenues, isolated cottages, front lawns and truck patches are part of the plan, and, in addition, a winding park system and artificial lakes.

Employes of a large typewriter works in the near vicinity will be the citizens of the new municipal city. It will start with a population of over 400. The city and surrounding country is much interested in the work, and the breaking of ground will probably be made the occasion of a large industrial celebration.

HOOKSTOWN FAIR OPENS.

Farmer Who Loves His Hard Cider Was Disappointed—Races Are Scheduled for Today.

NEW BRIGHTON, PA., Aug. 23.—(Special.)—The Hookstown fair opened for three days, for the 21st time, today. The crowd on the opening day, as usual, was small, but tomorrow and on Thursday thousands will flock to this most unique fair in Western Pennsylvania. Absolute absence of boisterousness marked the opening of the fair today. Not an intoxicated man was on the grounds and no liquor can be had within six miles.

Floral hall is a maze of wonderful crazy quilts and knit things, made at the firesides of neighboring farms. Lavish display of golden butter and other dairy products is another feature. In the cattle sheds cows, sheep and pigs of beautiful proportions stand before the admiring gaze of the farmer.

Three races were run today. The track is one-third of a mile long, of irregular shape and hilly in places, but the people cheered the horses just the same. Tomorrow's race is for 2 and 3-year-old trotters and pacers. A 2:40 trot and a 2:30 pace will be run, but as the track record is three minutes, no new records are expected.

Waite was accurately described by Deitrich. He had an eight-days' growth of beard and was water-soaked. It rained very hard yesterday afternoon and Waite must have been drenched.

GAVE UP HIS WIFE FOR COSTS OF THE PURSUIT

Elopers Followed from Pittsburgh, but Husband Agreed to Their Release Upon Being Reimbursed.

[SPECIAL TELEGRAM TO THE GAZETTE.]

CARBONDALE, PA., Aug. 23.—Having pursued his eloping wife and her paramour, Salvatore Fabbro, from Pittsburgh to this city, Leonardo Grecco today decided to let Fabbro have her upon the payment of the cost of the pursuit, which has lasted several days.

The pair eloped last week and, believing that they would came to the coal regions, where they formerly lived, Grecco secured the services of an Allegheny constable and started in pursuit, resolved to punish them both. A several days' search in the coal region ended yesterday with the arrest of the couple at Archbald, where they posed as man and wife and were celebrating their honeymoon with some friends.

They were locked up all night, but this condition and the danger of imprisonment did not frighten them, and when arraigned for a hearing they publicly expressed greater love and affection for each other than ever. Grecco, who expected to find his wife repentant and eager to return home, was dejected when he discovered she was so much in love with Fabbro. After some minutes' meditation he said to the prisoner:

"You can have her. I do not care now. But it has cost money to come here. Will you pay my expenses?"

Fabbro, delighted, did so. The case was then dropped. Grecco and the constable went home and Fabbro and the woman departed together.

LEAGUE GAMES TODAY.

Philadelphia at Exposition park.
New York at Chicago.
Boston at St. Louis.
Brooklyn at Cincinnati.

An even break was the best the Pirates could get from the Giants at Exposition park yesterday afternoon, the locals winning the first game, 5 to 3, while the visitors took the second, 4 to 0. Both contests were evenly played and there was a holiday turnout of 15,935 to watch the sport.

The fellow who said that baseball was losing its popularity should have been at the park yesterday and he would have found good reason to change his opinion. The crowd that turned out was the greatest at the park outside of a holiday or opening day. It was a big, well-dressed, good natured gathering, with the preponderance of sympathy for the Pirates, yet fair enough to appreciate and applaud every good play contributed by the visitors, and there was plenty of opportunity, for the New Yorkers played the game to the limit.

The crowd gathered early. Long before 2 o'clock all the stands were crowded and the people began taking positions behind the ropes on the playing field. When the players took their places the crowd surrounding the field was a solid mass six deep and so arranged that it resembled a huge horseshoe. There was plenty of police protection, but the officers had little to do.

This mass of people on the field compelled the adoption of a ground rule and a ball hit into the crowd in fair ground went for a two-base hit. The crowd was a pretty sight and President Dreyfuss could not have selected a better time for a huge photograph of the playing field and crowd, which was taken during the progress of the game.

The first game, which was a battle between "Deacon" Phillippe and "Iron Man" McGinnity, was the one that had the most interest for the crowd, not because it turned out to be a victory for the home team, but for the treat afforded in pitching as well as fielding. Not only was it a great battle of skilled pitchers, but there were some displays of fielding that brought out enthusiastic cheers. The prettiest play was made by Bransfield in the third, when he nailed Dahlen's liner to right and got back to first in time to complete a double play.

The honors of the game went to Phillippe, for though the Giants secured one more hit off his delivery than the Pirates got off McGinnity, yet these hits were so scattered that but one run would have been scored had it not been for a costly error by Cassidy in the first, when he dropped an easy fly from Devlin's bat and allowed two Giants to score. The hits made off McGinnity were of the timely kind that acted as run producers.

The Giants started off with two runs in the opening inning and things looked blue for the Pirates, but they kept right at work and victory was the result. After Bresnahan had struck out in the opening inning Browne cracked out a base hit and McGann drew a base on balls. Mertes went out on a fly to Beaumont, a very, pretty catch, and Dahlen waited for a walk to first. Devlin then sent an easy fly to right field which Cassidy got under in good shape, but he dropped the ball and both Browne and McGann scored. Their other run was scored by Mertes in the eighth, when he hit into the crowd in left field for two bases and scored on outs at first.

The Pirates got their first run in the second inning when Bransfield was given a base on balls, went to third on a passed ball and scored on McCormick's two-bagger to left. In the fourth Ritchey and Wagner singled in succession, but Ritchey was forced at third on Bransfield's grounder. Cassidy struck out, but McCormick singled, scoring Wagner with the second run. Phillippe opened the fifth with a single to right and scored when Beaumont drove the ball over Bresnahan's head for three bases, and Beaumont counted on Ritchey's fine drive to right for two bases. The Pirates' final run was scored by Ritchey in the eighth, when he reached first on Devlin's error, went to third on Wagner's drive to left for two bases and got home on Bransfield's drive at Dahlen, which was too difficult for the latter to handle properly.

The second game went to the Giants because they fairly earned it by the clever pitching of "Dummy" Taylor and fine all-round work of the New York players. After winning the first game the Pirates seemed to have lost all interest in the second contest, for there was not the dash and spirit that characterized their work in the first contest. This may have been due to the fact that they were unable to do anything with the curves served up by Taylor, who had one of his good days, and he pitched ball like a champion. Lynch had his third try in 10 days against the Giants, and this time they were able to take his measure at opportune moments.

The Pirates had men on the bases often enough in the second game, but the hit to bring the runs home could not be produced. With the visitors it was different, for they got their hits at the proper moments, which accounts for their four runs. In the third inning the first two batters were given bases on balls, but one of them, Taylor, was forced at the plate from Leach to Carisch. Bresnahan, who had drawn a base on balls, and McGann, who had reached first on the out at the plate, counted when Mertes drove a single to left. In the fifth Taylor singled and got around on singles by Browne and Mertes. With two out in the sixth Gilbert, who had reached first on a single, went to second when Bowerman was given a base on balls and scored on Taylor's single to middle field. The scores:

LIGHT WORK FOR MUNROE; JEFFRIES ACTIVE UNTIL FRIDAY

SAN FRANCISCO, CAL., Aug. 23.—(Special.)—"You can take it easy now until Friday night," said "Kid" McCoy to Jack Munroe in the gymnasium by the beach this morning. It was at the close of a nine-round tryout, in which Harry Foley, Harry Chester and McCoy had divided the labors. They had kept Munroe fully extended during the whole time, yet a flushed face, a damp forehead and a smear of blood under the nostrils were the only traces of the turmoil that showed on Munroe. His breathing was scarcely disturbed while his trio of tormentors seemed threatened with an air famine.

"I am glad that the hard work of training is over," said Munroe, as he tossed his sodden gloves aside. "I have had two months of it now, and if some fellows like this thing of taking on a few pounds at night and sweating it off again next day, I will say candidly that I don't. It grows very monotonous and I'm pleased to be through with it."

From now on Munroe's training will be in the nature of pastime. He will take outdoor exercises and will sprint a few miles each day. He may go into the gymnasium and punch the bag if he feels like it, but the tread mill part of his preparation is at an end.

Jeffries inclined toward the anti-breakfast cult this morning, eating only a sherry and egg. After a short sprint on the road, he put in some time in the gymnasium boxing and wrestling, concluding the day with a run on the road. He will work up to the day of the fight.

DEAD HEAT OCCURS IN RACE AT BRUNOTS ISLAND

Alta W and Carrie Williams Come Under Wire Together—Six Events Contested.

The twelfth matinee of the Pittsburgh Matinee club, postponed from Saturday, was held yesterday at Brunots island, and the track was in good condition. eight races were scheduled, but only seven were held, the last race, a 2:25 pace, being dropped. The sixth race went three heats, Lo Ru, Pug and Allebrieve, the three entries, each winning a heat. Lo withdrew in the third heat which was won by Pug, and J. G. Bennett, the driver of Allebrieve, conceded the race to Pug owing to the lateness of the hour.

For the first time this year a dead heat resulted. It was in the 2:15 pace which was fought out for four heats, the first being a dead one. There were but two entries and the race was the feature of the day. The other race with two entries, the free-for-all trot, went three heats, and was a great race. In the 2:15 trot Pug and Allebrieve trotted a dead heat for second place in the second heat. In the 2:16¾ trot J. Francis Burke, driving Glory, and H. P. Haas, driving Confessor, got mixed up at the first turn and the spokes of Burke's rear wheel were ripped out, forcing him to retire. The summaries:

BROWN IS ENIGMA.

He Holds Waynesburg Down to Five Hits, Winning Game, 5 to 2.

Waynesburg was powerless before the pitching of "Farmer" Brown yesterday at McKeesport and was beaten, 5 to 2. Brown pitched good ball throughout. He divided honors with Howe Shultz, the McKeesport first baseman. Shultz laid against the ball for three hits, one for two bases, and four of his fielding chances were difficult. "Hump" Soffel, the P. A. C. captain, played a fine game at second for McKeesport. The score:

NORFOLK IS WON BY MORNING STAR

Takes Three Heats of $5,000 Stake, Reducing Time for the Event.

DARIEL FAILS AT THE RECORD

[BY ASSOCIATED PRESS TO THE GAZETTE.]

READVILLE, MASS., Aug. 23.—Perfect weather conditions, an attendance of 5,000 persons and exciting racing marked the second day of the Grand circuit meeting this afternoon. Of the four events on the card, the $5,000 Norfolk, to which pacers eligible to the 2:24 class last spring were entered, was the feature.

Morning Star, owned by George Sherman of Port Henry, N. Y., was the favorite, but in the first heat Lon McDonald, driver of the favorite, waited too long before making his drive for the heat and was unable to catch Gordon Prince. McDonald took no chances the next time and wisely, for when Geers pulled out Baron Grattan at the final furlong pole, the latter came very fast and Morning Star had nothing to spare at the wire. The time for the heat, 2:04¾, reduced the former record of the stake 1¼ seconds. The fast time took the speed out of Geers' horse and Morning Star won the two following heats.

The 2:24 trotting race evoked great interest, as the starters included the converted trotter Knox's Gelatine King, with a pacing record of 2:01¾. He was made the choice for the event and headed the summary, though in the initial heat he was compelled to trot in 2:09¾, a feat unprecedented for a pacer of his class at the trotting gait.

Dariel, 2:00¼, made an attempt to lower her own world's record, pacing for mares, but through a break at the three-quarters pole, failed to do better than 2:06. Summaries:

LUSH IS A PUZZLE.

Washington Fields Poorly and Phillies Win Easily, 13 to 2.

WASHINGTON, PA., Aug. 23.—(Special.)—Washington was easy for the Philadelphia Nationals today, the leaguers winning 13 to 2. Lush allowed but four hits. His support was ragged at times, allowing Washington's only runs. Hollis pitched well for Washington, but the team at times seemed to have stage fright. Washington lost several chances to score by stupid base running. More than 1,100 people witnessed the game. Score:

MRS. MAYBRICK FACED A CROWD

Her Home-Coming Took Many Curious Persons to the Pier in New York.

FIGHT TO RECOVER PROPERTY

[By Private Wire to The Gazette.]

NEW YORK, Aug. 23.—Mrs. Florence Maybrick returned to America today on the Red Star liner Vaderland, after her 15 years' imprisonment in Aylesbury prison, England, determined to fight to establish her innocence and to recover the great fortune, which she claims she was induced to sign away during the awful moments of suspense, when her life was in the balance at the hands of 12 English jurymen.

It was planned that Mrs. Maybrick would go from the American line pier to the country home of her friends, Dr. and Mrs. Emmett Densmore, at Ellenville, in the Catskills, but the presence here of David H. Armstrong, the London lawyer, against whom suit has been brought for the recovery of the great Holbrook estate, and his statement that her release from prison was obtained by trickery, forced a change in her arrangements. She will remain here at the Holland house, indefinitely, to consult with her attorneys and to await the arrival of her mother, the Baroness de Roques.

As the Vaderland steamed up the harbor this morning the long-suffering little woman, whose trial and conviction aroused indignant protest and sympathy throughout the civilized world, wrote a statement for the American press, in which she protested her innocence and expressed a fervent hope that the great injustice done her would soon be righted.

Faced Curious Crowd.

Mrs. Maybrick impressed everyone as a marvel of self-possession, as she stepped ashore and faced the curious crowd that thronged the pier. But her friends knew that earlier in the day she had broken down and wept hysterically, when she went on deck at quarantine and realized, as the sky line of New York loomed up out of the morning mist, that after all her travail and suffering she was home at last, and an end of her persecution and forever free from the shadow of imprisonment, which, under her "ticket-of-leave," hung over her so long as she was on English soil.

The ship's officers were alert to save Mrs. Maybrick from any annoyance while disembarking. Guards were stationed at the companionway to prevent any one from approaching her stateroom, and when she left a cordon of officials surrounded her from her stateroom to the gangplank. Mrs. Maybrick waited until all the other passengers had left the ship. She made the voyage across in care of her attorney, Samuel H. Hayden of Washington, D. C., and Mrs. Hayden.

Dr. Densmore and his wife, Dr. Helen Densmore, have been steadfast friends of Mrs. Maybrick since her trial. They were in England at the time, and their sympathies for their country woman were intensely aroused. Mrs. Densmore wrote a book about the Maybrick case and organized the Maybrick association. And today Dr. Densmore and Mrs. Maybrick met face to face for the first time.

Seems Older Than 42.

After a little chat the party prepared to leave the ship. Mrs. Maybrick, leaning on Mr. Hayden's arm, was first to reach the gangplank. On the dock a curious crowd pressed around to catch a glimpse of the woman whose name has been known the world over. The only trace of her imprisonment is that she seems older than her 42 years.

Her gown was a check gray and black silk, nattily made and her straw hat had a touch of red in it. Her gloves were white chamois, and she carried a sunshade of white and black check silk. Her cheeks were full and the tan of the sea voyage had taken away the prison pallor.

She is small in stature and rather frail. Her face has a plaintively sweet expression, imparted by a pair of beautiful, large, dark eyes. She did not look at all broken in health and her manner, though quiet, was exceedingly self-possessed. She showed that as she looked coolly at the crowd that pressed so close about the gangplank that they almost barred her way.

A circle of camera men held the front line, but Mrs. Maybrick did not turn from them or put down her veil. As she stepped down on the pier it was noticed that in the handle of her sunshade she had interwoven a tiny silk American flag.

"Thank God, I am home again. How good it is," she said to Judge Hayden, as she stepped from the gangplank.

CHAUTAUQUA

CHAUTAUQUA, N. Y., Aug. 23.—(Special.)—While many people are leaving Chautauqua daily the audiences at the various lectures appear as large as those of two weeks ago. The Rev. A. L. Philput talked to a large number of interested people on "Some Definitions of Christianity." Later in the day he lectured on "The Value of the Study of Biography."

Mrs. Charlotte Perkins Gilman of New York made her first appearance at Chautauqua and gave the first of a series of lectures on humanity. Her subject this morning was "The Nature of Humanity," in which she said:

"We have taken an apologetic stand in regard to human nature. But we have grown more and faster than any other form of life because of the peculiar nature of humanity. There is no animal in the world treated worse by its master than is the human animal. Why is humanity so discontent with itself? Happiness for the individual animal is the perfect adjustment to its physical environment, but when you consider the collective animal you come to a new field of consciousness and activity and find new kinds of happiness and unhappiness. If you take a human being and isolate him completely on ever so beautiful an island he suffers and suffers and goes mad, because it is impossible for a human creature to live alone. Our humanity is in common. We are human in proportion as we are related to each other. A human being as a separate kind of creature on the earth has a distinct nutritious process of its own.

"The whole range of animal life below us has to hunt its food. The only form of life that produces food is the human. We make that which makes us. We have a distinct nutritious process and it is a collective one. There is no such thing as a solitary agriculturist. Our humanity rests on agriculture. Man cannot live in absolute isolation because the brain could not have contact with other brains. Without that contact the brain cannot live. To be healthy the human brain needs large and general circulation. Transmission is an absolute law of health of the brain. We as a race have in common among us the divine light of human instinct of going to the assistance of each other. It is natural to love and serve each other. Let us use the human love and devotion in our daily life."

P. M. Pearson gave a lecture reading from the works of Joel Chandler Harris and Ruth McEnery Stuart. The illuminated fleet postponed from Friday night was held tonight and was a brilliant spectacle. All the large and many of the smaller steamers on the lake were gayly decorated with Japanese lanterns. All the boats formed an immense circle below the dock and moved round the lake, each boat having a fine display of fire works.

SOCIETY

MISS HELEN COOK has chosen Saturday, October 15, as the date for her wedding to J. Bissell Speer. Miss Cook is the daughter of Mr. and Mrs. David S. Cook of Santa Barbara, Cal., formerly of Evanston, Ill. The wedding will be conducted at their home in Evanston, which has been temporarily closed during their residence in Santa Barbara. It is to be an afternoon affair, and very quiet. The bride will have but one attendant, her cousin, Miss Susan Shields Williams of Shields station.

There will be a large party of local people go on to Evanston for the wedding, among them being Mrs. L. Hasley Williams, Mr. and Mrs. Frank Fabor Brooks and the parents of the bridegroom, Dr. and Mrs. Alexander M. Speer, together with several other members of the Speer connection. Mr. Speer has just returned from a visit with Mr. and Mrs. Cook in Santa Barbara.

Dr. and Mrs. Speer of Center avenue, the prospective bridegroom's parents, have only recently returned from Lake Muskoka, where they were the guests of Mr. and Mrs. James Speer Kuhn at their summer home, Belle Isle. Mr. and Mrs. Alexander M. Speer, Jr., are now with Mr. and Mrs. Kuhn, and among the other members of the house party which is being entertained by them is Miss Louise Scull of Somerset, a sister of Edward Blaine Scull of the East End. Mr. and Mrs. William Speer Kuhn are once again at their summer home in Deer park after having visited at Belle Isle. Dr. and Mrs. Speer expect to go to Ebensburg very shortly to spend the remainder of the summer with Miss Mary Laughlin at "The Gables."

Stone-Kohler.

With all the solemnity and ceremony of the Roman Catholic ritual, Miss Mary Alice Stone, daughter of Mr. and Mrs. John Stone of Verona, and William P. Kohler of this city were married yesterday morning at St. Joseph's church in Verona. The bride was attended by Miss Mathilda Ober as maid of honor, and the best man was John A. Flynn. The Rev. Father J. J. Vogt performed the ceremony and celebrated solemn high nuptial mass, assisted by his two brothers, the Rev. Father William Vogt and the Rev. Father August Vogt, also by the Rev. Father Henry and Herman Kilmeyer.

The bridal gown of white Paris net over white silk, was made with round yoke and bertha, short full sleeves and demi-train. Small white velvet bows studded the skirt and bodice, the former having numerous tucks which made it fall in soft full folds. The bride carried a rope of lilies of the valley and foliage, and a white kid prayer book, the gift of the bridegroom. Both she and her maid of honor wore large white hats. The latter was gowned in white mull trimmed with valenciennes lace and dainty French knots of blue. Her flowers were white roses. The church was prettily but simply decorated with palms, ferns and asters. A wedding breakfast at the home of the bride followed the ceremony, and in the evening Mr. and Mrs. Kohler left for an eastern tour. They will make their home on their return with Mr. and Mrs. Stone.

The bride has been organist at St. Joseph's for a number of years and has hosts of friends outside church circles. Among the wedding gifts, which included linen, cut glass, silver and china, were two rosaries from the sisters of St. Joseph's school, and a combination silver fern dish and candelabra from the members of the choir.

Wedding Invitations Issued.

Mr. and Mrs. Charles E. Pettee of North St. Clair street, East End, have issued invitations for the marriage of their daughter, Miss Saidee Pettee and Herbert F. Black, also of this city. The wedding will take place at the home of the bride on Wednesday evening, September 7, at 7:30 o'clock, and an uncle of the bride, the Rev. W. C. Skinner of Washington, D. C., will officiate. The Rev. Mr. Skinner is expected in the city on the Monday preceding the wedding, and on Monday next two friends of the bride-elect, Miss Ida Heacock and Miss Marjorie Truax, both of New York, will come to Pittsburgh to be entertained by Mr. and Mrs. Pettee. Both will be included in the bridal party.

Several social affairs are scheduled to precede the wedding, among them being the rehearsal on Monday, September 5. Miss Pettee will be hostess at a porch party next Wednesday afternoon in honor of her two out-of-town attendants. The invitations for this affair will be issued shortly. Mr. Black, the prospective bridegroom, is connected with the Carnegie Steel Company. His fiancee was maid of honor last April at the wedding of Miss Margaret Fulton and William Y. McKee, which took place at the home of the bride's parents, Mr. and Mrs. Louis Brown Fulton, in Center avenue, Shadyside.

East End Girls in Oakmont.

Quite a number of East End girls went to Oakmont yesterday to be the guests of Miss Helen Crookston, who entertained at euchre in honor of her house guest, Miss Blanche Madigan of Connellsville, a St. Xavier school friend. The hostess was assisted by her mother, Mrs. John Crookston. Prizes were won by Miss Katherine Ihmsen and Miss Bessie Jackson of the East End, and by Miss Mary Thomas of Oakmont. Large bowls of snowballs formed effective decorations. After the games refreshments were served on the card tables.

The out-of-town guests included Miss Madigan and Miss Marie Moorhead, Miss Harriet Johnston, Miss Evelyn South, Miss Josephine South, Miss Bess McCracken, Miss Zilla Grimes, Miss Lillian Shields, Miss Josephine Heyl, Miss Julia Joyce, Miss Rosa Harting, the Misses Murphy, Miss Katherine Imhsen, Miss Harris, Miss Denniston, Miss Bessie Jackson, Miss Marion Long, Miss Helen Long, Miss Bess Jones, Miss Margaret Jones, Miss Lelia Colvin, Miss Hilda O'Neill, Miss Estelle O'Neill, Miss Jeannette Rowand, Miss Flora Crosby, Miss Agnes Neeper and Miss Agnes Crookston, all of the East End; Miss Helen Steel of Brownsville, and Miss Margaret McHugh of Uniontown.

Notes of Travelers.

Mr. and Mrs. James I. Buchanan of Walnut street, left last evening for Clayton, in the Thousand Islands, to be the guests of eastern friends for about a week.

Mrs. James Collord and her daughter, Miss Augusta V. Collord of Fifth avenue, will leave the city in a couple of weeks for an extended eastern tour.

Miss Mayme Undercoffer of Amanda street, Knoxville, and her grandmother, Mrs. M. Dean, will leave tomorrow morning for Washington, D. C., to be gone three weeks.

Miss Cora Fife of Mt. Washington, has gone to Sandy Lake for a few weeks.

Coming Home for the Winter.

Mrs. Frauenheim and the children have been in Ebensburg since early in the summer and have been joined there each week by Mr. Frauenheim, who makes over-Sunday visits with them.

Crabbe-Jeffers.

WOOSTER, O., Aug. 23.—(Special.)—Dr. Samuel A. Jeffers of California, Pa., was wedded here this evening to Miss Anna Crabbe, a member of one of the leading families of the city. The bride during the past year taught in the public schools of California. The couple left here on a late train for Pittsburgh and on Saturday will sail for a year of travel in Europe.

BOARD OF CONCILIATION HEARS GRIEVANCES

One Concerns Non-Payment of 10 Per Cent Increase at Bernice.

[By Associated Press to The Gazette.]

NEW YORK, Aug. 23.—The board of conciliation of the anthracite strike commission met today. There were present W. L. Connell, of Scranton, chairman of the board; S. D. Warriner of the Lehigh Coal Company, representing the operators, and District Presidents Nichols, Dettrey and Fahy, representing the mine workers. Carroll D. Wright, the umpire of the board, was also present to receive three grievances of the mine workers which the board of conciliation could not agree upon.

Mr. Fahy, on behalf of the miners, submitted grievance known as No. 49, which is made by the employes of the Lehigh Coal Company at Centralia, who allege that the company reduced the price of powder 50 cents per keg and retained 6 per cent of the increase granted. The other companies, it is alleged, reduced the price of powder \$1.25 a keg and retained 7½ per cent. The Centralia men ask for an equitable adjustment of the price of powder and the percentage retained by the company.

Mr. Warriner admitted the truth of the miners' allegation, but argued that the difference in conditions at Centralia and those at other mining centers justified the increased cost of the explosive. Umpire Wright took the matter under advisement.

The miners employed by the Northern Anthracite Company in the Bernice fields submitted a grievance to the board, claiming that the company has not paid the 10 per cent increase awarded by the strike commission. The operators claim that the mine in question is not an anthracite mine; that the coal does not bring the price of \$4 50 per ton at tidewater, and that while entitled to other increases granted to the miners, they were not entitled to the sliding scale increase of 10 per cent. The miners argue against this that the Northern Anthracite Coal Company submitted to the decision of the strike commission, and that the value of the coal did not enter into the consideration of the matter. The matter went under advisement.

On motion of Mr. Nicholls the board agreed to submit unconditionally to the decision of the umpire on the three grievances submitted.

HAY FEVER

No one need suffer from hay fever if he will use Pretzinger's Catarrh Balm. The following testimonials are but drops from the bucketfuls of similar indorsements which come with every mail.

"I must say that your Catarrh Balm is the only medicine that did me any good in hay fever and I have tried everything I heard of. I received benefit from the first application and now I can breathe as easily as I can in May or June—my head and nose are clear. I suffered with hay fever for 15 years, many nights could not lie down at all; then the heat of the day, with flying dust, would nearly set me crazy—in fact life was not desirable under such circumstances. I am glad that I found your remedy. Will recommend your balm anywhere and everywhere." James Groenendyke.

New Electric Motor May Substitute Steam Locomotives

It may be possible within a few years to travel across the country in a railway train without getting a cinder in one's eye. The passing of the steam locomotive and the coming of the electric engine has been predicted by the officials of the General Electric Company, who demonstrated to a party of New York engineers that it has devised a new and practicable alternating motor.

The invention is the result of 14 years' experiments, and was originally conceived by Electrician Lamme of the Westinghouse company. The advantages of alternating current system, by which the new motor is operated, are in the economy of construction and operation.

With the old direct current scheme power stations are required at intervals of about 10 miles, with the accompanying expense of maintaining attendants at each substation. These substations are required to convert the alternating current into a direct current. With the new motor all this is done away with. Cars can be run at will, either with the direct current or with the alternating current.

The new motor can be geared up to a much higher rate of speed than the one operating with the direct current, and there is no reason why it should not take the place of the steam locomotive.

Rail Pool Meeting Called.

The rail pool will hold a meeting early in October to determine on the price to be paid for rails next year. Up to this time, the pool, one of the best organized combinations in the trade, has been able to checkmate every move of the railroads and the general trade to secure lower prices on rails. It has maintained the price to domestic consumers at $28 a ton, while selling rails to foreign consumers at from $4 to $27 a ton cheaper. On the part of some of the principal members of the rail pool confidence in their ability to maintain prices at $28 a ton is apparently unimpaired.

Free Rides Barred Out.

The inaugural run of the Banner Blue Limited from St. Louis to Chicago in the Wabash fast daylight service was made under the most favorable auspices. The new equipment attracted much attention at all stations along the line from the crowds who assembled on the platform to see the latest American train de luxe. It was hauled by one of the new Atlantic type of locomotives, and the schedule, eight hours even for the run of 288 miles, was steadily maintained throughout. Like all other fast trains no annual, time or trip passes will be honored on this train.

Pullman Porters to Organize.

The porters of the Pullman cars running out of Pittsburgh have been receiving copies of a booklet, the cover of which bears this caption: 'Freemen, yet slaves under the Lincoln's son, of service and wages of a Pullman porter.'' The reading matter advocates a Pullman porter's union and demands, among other things, higher wages and shorter hours. The booklet is backed by an organization of colored porters, and it is addressed by a strange coincidence to Robert T. Lincoln, son of the president who liberated the colored people from slavery. The author of the booklet is C. F. Anderson, who is employed by the porters to conduct their campaign. The porters assert their pay is from $25 to $45 a month, and that the tips have fallen off to almost nothing.

Railroad Earnings.

The gross earnings of 32 roads for the first week in August were $5,695,007, against $5,685,232 for the first week in August, 1903, an increase of $9,775. Seventeen roads show increases and 15 decreases. Since July 1, the roads referred to above earned $31,513,825, a decrease of $252,973 over the $31,766,798 reported for the corresponding period last year. For the longer period 12 roads show increases and 20 decreases.

Railroad Notes.

The trainmen on the Erie railroad will furnish ice water to the passengers on request.

Superintendent J. W. Patterson, Jr., of the Wabash, returned yesterday from a short visit to Atlantic City.

J. E. O'Hearne, master mechanic of the Wheeling & Lake Erie at Norwalk, O., is in the city conferring with Wabash officials.

The Pittsburgh & Lake Erie awarded the contract for the construction of a girder bridge across Third street, Beaver. The bridge will have double tracks and will cost $15,000.

KIPLING'S POEMS WORKED REFORMS

Dr. Hulley's Tribute to the Uncrowned Poet Laureate of the English Speaking World.

MANY TEACHERS AT INSTITUTE

Twelve hundred public school tutors listened to a lecture on "Kipling and Tommy Atkins" by Dr. Lincoln Hulley of Lewisburg, Pa., before the Allegheny County Teachers' institute in Carnegie music hall yesterday afternoon. Dr. Hulley said there are two widely different opinions prevalent concerning Kipling as a writer—one being that he is the uncrowned poet laureate of the English speaking world, and the other that he is the voice of the Hooligans who are thugs and thieves. He showed that Kipling did not glorify rogues, but took things as he found them and delineated sturdy character and heroism in the soldiers. Much fault has been found, Dr. Hully said, with Kipling for telling some unpleasant things about the British army and navy, but he had produced some reforms. The late Queen Victoria was much displeased with his "Widow of Windsor," which was a plain statement of fact to the British public. It contrasted the aristocracy with the "poor" beggars in red" and had a far-reaching effect. Dr. Hulley closed by reciting Kipling's famous "Recessional."

Dr. S. D. Fess of the Chicago university told of some interesting and important episodes at the beginning of the civil war. He paid a high tribute to the late William E. Gladstone, but said he had favored recognizing the independence of the southern confederacy, which would have been done by the British government at the time of the Mason and Slidell affair, had it not been for the emphatic negative of Queen Victoria.

Dr. J. L. Hughes of Toronto, Canada, continued his lecture on "Dwarfing Childhood," with special reference to the mistakes in teaching.

At the morning session Dr. Hughes defended the "Bad Boy," asserting that his wilfulness was often more attributable to physical than to mental defects.

Dr. Hulley talked on Tennyson, defending the poet against the charge of effeminacy in his writings.

Today the Allegheny county treble chorus will make its appearance with A. L. Fillmore as director and Miss Edna Altman as accompanist. The members of the chorus are:

Lillian P. Frazier, Minnette Brunner, Laura Merker, Blanche Forsaithe, Ada V. Hunter, Nina Gibson, Ellen Vierheller, Adaline Altman, Laura M. Jeremiah, Gertrude Pinney, Mary F. Out of Plumb.

When the wall is out of plumb the building is more or less unsafe, and the higher the wall is carried out of the perpendicular the greater the danger of collapse. It's about so with the health; it is out of plumb when the digestion is impaired, when there is a dull, sluggish feeling, with nervousness, irritability and sleeplessness. Every day that these symptoms are neglected increases the liability to physical collapse.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It purifies the blood and cures nervousness, irritability and sleeplessness by curing the diseases in which they originate.

"For three years I suffered untold agony," writes Mrs. H. R. White, of Stanstead, Stanstead Co., Quebec. "I would have spells of trembling and being sick at my stomach, pain in right side all the time; then it would work up into my stomach and—such distress it is impossible to describe. I wrote to the World's Dispensary Medical Association, stating my case to them, and they very promptly answered and told me what to do. I took eight bottles of Dr. Pierce's Golden Medical Discovery, and five vials of Dr. Pierce's Pleasant Pellets. Thanks to Dr. Pierce and his medicine I am a well woman to-day. Dr. Pierce's medicines also cured my mother of liver complaint from which she has been a sufferer for fifteen years. We highly recommend these medicines to all suffering people."

The People's Common Sense Medical Adviser, a book containing 1008 pages, is given away. Send 21 one-cent stamps for expense of mailing *only*, for the book in paper covers, or 31 stamps for the volume bound in cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

STOCKS OPENED STRONG, BUT LATER SOLD OFF

Closing Prices Showed Small Net Declines for the Day—Manufacturers Light and Heat the Strong Local Feature.

By JOHN O. BAGLIN, Financial Editor.

With the exception of National Lead common, Southern Pacific and Southern Railway common, the New York stock list closed at net declines ranging from small fractions to 1 per cent. At the opening of the market, however, the tone was strong, in the face of lower quotations from London which included both American securities and English consols. The foreign market is apparently influenced by the developments in the far east, but the late news to the effect that a Japanese squadron had sailed for Shanghai with the intention of attacking the Russian vessels in that harbor which are violating Chinese neutrality by remaining in port beyond the time allowed by the regulations of war, had no influence upon Wall street. The stocks which were most active in the rally on Monday were again the leaders in the upward movement yesterday. Southern Pacific made a new high record by advancing to 57⅛, Amalgamated Copper to 56⅝, Southern Railway to 29, Union Pacific to 100½ and St. Paul to 151¾. Following these there was a revival of activity in the tractions, and Metropolitan Street Railway advanced to 123¾, Metropolitan securities to 92⅝ and Brooklyn Rapid Transit to 54¼.

The publication of the government's weekly weather bulletin had a good effect upon the grangers. The weather in the corn belt the past week was very favorable, and there was an improvement in cotton conditions. Spring wheat harvesting is generally finished except in North Dakota and Northern Minnesota, where the crop is backward and great injury has occurred on account of rust. Curiously enough, commodity markets acted contrary to what might have been expected from this report of weather conditions. Cotton and corn were stronger and higher, while wheat was weak and lower. The decline in wheat was in the face of a falling off in primary receipts and predictions that the movement from the winter wheat section would continue to fall off. On the other hand, the Northwestern Miller, an ultra-conservative authority, estimated the production of the three principal spring wheat states at 170,000,000 bushels, and stated that the reported damage by rust had been greatly exaggerated. Export clearances of wheat and flour amounted to 120,369 bushels, and of corn 118,000 bushels. Wheat closed from 1⅛ to 2⅜ cents lower, while corn was 1 to 1¼ cents higher.

United States Steel preferred displayed considerable irregularity. For a stock with a large capital and supposed large floating supply of stock, the fluctuations recently have been wider than usual. It opened at 59⅛, advanced easily to 59⅞, and then at the close reacted 1 per cent to 58⅞. National Lead common advanced 2 per cent to 24¾ on reports of progress being made with the merger, and Smelting advanced to 64⅝, but reacted sharply to 63¾ and closed at the lowest. Amalgamated Copper also declined a point to 55½ and closed at the lowest. Sugar opened higher at 131, but sold off to 129½. During the final hour the entire market sold off and the tone became heavy. Comparing final sales yesterday with those of Monday, the following net declines are shown:

Manufacturers Light and Heat and Westinghouse Electric were the only active stocks on the Pittsburgh exchange. The strength of the former was proved to be in some measure due to the existence of a short interest, 190 shares of the stock having been bought in under the rule at 36 for account of a trader who was short. The closing bid was 36⅛, the highest for the day and a new high record for the year to date. Westinghouse Electric rallied to 79¾ and closed at 79⅝ bid. Westinghouse Air Brake was unchanged at 132. Ohio Fuel Supply advanced to and closed at 39. Steel stocks were firmer, Crucible preferred advancing to 37½ and closing at 37 bid, and United States Steel preferred advancing to 59¾ and closing at 59 asked. Pittsburgh Coal preferred sold unchanged at 58, and River Coal common was also unchanged at 8. Changes in the remainder of the list were insignificant.

NOTES AND COMMENT.

Secretary Chaplin of the Pittsburgh stock exchange yesterday bought in "under the rule" 190 shares Manufacturers Light and Heat stock at $36 a share. The transaction was for account of a broker who had borrowed the stock and neglected to deliver the same or put up additional margin when requested to do so. The amount of money involved between the price at which the stock was loaned and the price at which the stock was bought was only $760. The transaction attracted some interest among brokers because it is the first of the kind under the present organization, although in the old stock exchange many years ago the same rule was enforced against a member, and in the old oil days such transactions were of frequent occurrence. They do not necessarily involve the failure of a broker for whose account purchases or sales are made, since the rule provided for similar proceedings in case of dispute which may subsequently come before the arbitration committee. Members of the local exchange have been very much indisposed to invoke the rule in similar cases, although there are at times many complaints of a lack of promptness in returning borrowed stocks or making prompt delivery on short sales. The incident served to call attention to what is believed to be a fact, namely, a considerable short interest in many local stocks which have long been without support in the market. A little buying and the calling in of loaned stock would no doubt cause sharp advances in such stocks as Crucible Steel, Pittsburgh Coal and Westinghouse Electric.

Union Natural Gas stock was a dollar a share higher at 85 bid. This is an advance of $5 a share over the nominal quotations of a week ago. The strength is probably based upon the announcement that a special meeting of stockholders will be held next Monday to vote on a proposition to issue $3,000,000 bonds, half of which will be reserved to retire bonds now outstanding and the remainder to liquidate a floating debt incurred in the development of the plant. The company pays dividends at the rate of 8 per cent per annum on $9,000,000 capital stock. The securities of the company are not listed on the exchange.

The Westinghouse stocks were inactive but firmer. The talk on Electric is bullish, based upon reports that the company has recently booked some contracts, the details regarding which have not yet been made public. The business of the Westinghouse Air Brake is said to be improving, and great expectations are based upon recent improvements made to the company's apparatus and which it is said will in effect prolong the life of the patents indefinitely, with the possibility of the new form brake supplanting that of its chief competitor. The business of Union Switch and Signal, it is reported, has been maintained relatively better than that of either Electric or Airbrake, but there is little public dealing in the stock.

The tone of Pittsburgh Brewing stocks continues rather heavy. The common yesterday declined to 23⅝, and closed offered at that price. The preferred was quoted at 44¼ bid, and closed without sale. The 6 per cent bonds are steady at 113½ bid.

National Fire Proofing was dull at 8 for the common and 29¼ for the preferred. Harbison-Walker common was quoted at 6½ bid. The preferred stock and the bonds were not mentioned.

A small lot of American Sewer Pipe sold at 21½, an advance of ½ per cent.

Natural Gas stocks were the firmest in the market yesterday. Manufacturers closed at 36⅛, the highest of the year. Ohio Fuel Supply advanced to 39 bid, but there were no offerings of the stock. Philadelphia common was offered at 40¼ and the preferred at 44¼ and closed without sale or bid.

United States Steel preferred having failed to go down on "bad news," Wall street is now inclined to be bullish for a turn on the theory that there must be a large uncovered short interest. Local sentiment on the stock, however, is bearish. A member of a Pittsburgh-New York brokerage house yesterday remarked: "Wall street is now trying to run the iron market as well as the stock market. Last week they were smashing all the pools in the trade and were going to precipitate immediate demoralization in the iron business as well as in the stock. Neither has occurred. Now some of our friends in the east are wiring us to know why we are not buying Steel preferred, and are predicting a boom in steel orders. We are too close to the scene of actual steel-making to get bullish on the stock, and our trade would prefer to pay a higher price when evidence of actual improvement is forthcoming, rather than to buy the stock now on expectations of squeezing the shorts or of increasing net profits by increased sales of products at cut prices."

One of the oldest Pittsburgh bankers and brokers remarked yesterday as he allowed the New York ticker tape to pass through his fingers: "I cannot get into sympathy with this bull movement in the stock market. All our advices from New York, which include some of the best houses in the street, range from rampantly to conservatively bullish, and we are assured that the strongest financial interests in the country are back of this market. On the other hand, all my information as to actual conditions in local industrial circles is anything but encouraging at the moment, and the best readers of the future do not see genuine improvement before next summer or fall. The stock market discounts the future, but hardly so far ahead as a year. In my opinion the real basis of this movement is 1 per cent call money. So long as large operators can buy stocks, paying from 5 to 10 per cent on current prices and carry the same on money costing from 1 to 4 per cent at the very outside, they can hold the market in the face of adverse trade conditions, and they may possibly be able to unload on a short interest. But a change in money market conditions would be immediately followed by a change in stock market conditions."

Private sales of Fayette County Gas were reported at 78 and 79 and of Tonopah Extension at $1.15.

The United States Leather directors declared the usual quarterly dividend of 1½ per cent on the preferred stock.

Numerous bull tips were current yesterday on Amalgamated Copper, Brooklyn Rapid Transit, Metropolitan Street Railway and Metropolitan Securities.

The surplus reserves of the Philadelphia banks now stand at $20,152,750, as compared with an average of about $8,000,000 for the corresponding period in five previous years. Philadelphia bankers have been offering money freely in Pittsburgh, and a number of loans have recently been negotiated at 4 per cent on local collateral.

The dividend on United States Steel preferred is payable this day next week.

Four prominent New York stock exchange houses are now being carefully watched. It is known that they have been borrowing large lines of stocks for over a year. They are today short of over 200,000 shares, principally United States Steel preferred and Pennsylvania. Standard Oil agents are keeping closely in touch with the operations of these firms, and there is no question but that the covering of these lines will be made an extremely difficult operation.

The Harrimans were credited with heavy purchases of Southern Railway yesterday.

The $3,000,000 4 per cent Philippine certificates of indebtedness were awarded to M. L. Turner, president of the Western National bank, of Oklahoma City, at 101.41. There were 10 other bidders. At the previous sale of these certificates the successful bidder was the American National bank of Kansas City, Mo., which bid 101.181. The certificates were immediately resold to Blair & Co. The Western National bank of Oklahoma City is six years old, has a capital of $100,000, surplus and undivided profits of $75,000, and deposits of $850,000. Its New York correspondent is the Western National bank. New York bankers are surprised that a western bank has again overbid them, especially as there has not been a very large demand for the certificates bought at the previous sale. It is thought that new certificates will be resold in New York.

Most of the prominent Wall street financiers who are now abroad are expected back within the next two or three weeks. E. H. Harriman has arranged to sail from Europe next Wednesday. James Stillman, George Gould and George F. Baker are expected to return the first week in September. Daniel G. Reid is also expected back from Europe about the first of September. William H. Moore and James H. Moore of the Rock Island party also are expected to be at their offices before the end of August. John W. Gates is expected to return from Saratoga before the close of the week. With the return of these capitalists, brokers expect that the stock market will show greater activity.

Philadelphia News Bureau.—One wealthy railroad man has bought 35,000 shares of railroad stocks since the first of March. He has bought the stocks of those companies whose dividends he expects will be increased before the end of 1905. He predicts that the following companies will increase their dividends during the next 18 months: Union Pacific, Louisville & Nashville, Norfolk & Western, Atchison, Illinois Central, American Sugar and United States Rubber preferred will be maintained, and that dividends on Southern Pacific, Ontario & Western, Brooklyn Rapid Transit and Reading will be begun. One of the oldest officials of the Standard Oil Company made the following characteristic statement to one of his younger associates a few days ago: "My advice to you is to buy some of the good railroad stocks, margin them liberally, keep away from the stock ticker and devote all your time and energy to your work."

The stocks of the express companies were among the few noteworthy features of the day, their gains on light trading reviving rumors of a consolidation of these interests. Adams Express advanced 5; American express 12 and Wells Fargo 35 points.

The strength of Southern Railway, which was a conspicuous feature of the day, was attributed largely to the improved situation growing out of the new ownership of the Seaboard system.

In New York yesterday United States government new coupon 4s advanced ½ per cent on call. Seaboard Air Line 4s advanced 4½ per cent.

The New York sub-treasury yesterday made a telegraphic transfer of $200,000 to New Orleans. This is believed to represent the first shipment of the season to the cotton fields and attracted some attention because of the general belief that the south will this year have the largest cotton crop on record. In this event the New York banks will be called upon for unusually heavy amounts. The sum of $200,000 was shipped to Canada, presumably to aid the crop movement in the Dominion. Foreign exchange eased off a trifle, with a slight increase in offerings of commercial bills, but not enough to affect the market.

STOCK MARKET CLOSED IRREGULAR AND HEAVY

Trading Was Professional and Operations Decidedly Uninteresting.

[BY PRIVATE WIRE TO THE GAZETTE.]

NEW YORK, Aug. 24.—The Herald this (Wednesday) morning says: Professionals again held the center of the stage in the stock market, but the operations were decidedly uninteresting. The market, active and higher at the opening, closed irregular and displayed heaviness. Crops again played an important part in shaping speculative sentiment. The spectacular advance in cotton, together with the remarkable strength of corn, may have furnished the explanation of the decreased activity and reactionary tendency of prices after the first hour or so. During that period the activity and strength which characterized Monday's market were again in evidence. Short covering and evident manipulation in certain leading issues caused prices to advance to figures identical with those reached before the recent reaction occurred. Tentative efforts were made to distribute stocks at the high prices, but, as has been noted before, the market is extremely narrow, and these attempts precipitated irregularity. Weakness finally developed when sentiment was adversely affected by the advance in cotton and corn.

London was again in a gloomy mood and was disposed to take profits on recent purchases of American stocks. In fact, there was a general selling from London of the stocks acquired some days ago, comprising the active issues in the local list. Cables from that center reported that foreign complications were looming up again in London and that business was stagnant. The sales for London account were of no influence, however, for the market reached its highest prices during the morning. Strength was largely afforded by the liberal orders in Southern Pacific and Union Pacific. These stocks reached the highest prices of the year yesterday. The buoyancy of these stocks lifted the trading out of a definite tendency to dullness and created similar movements in other shares. The strength of the stocks apparently impressed only the traders. Commission house business was not a factor, although some houses report more inquiry and interest from outsiders in the current transactions.

Cotton's furious advance of 50 to 60 points startled the financial community, in view of its complacent attitude on the progress of that crop. All the nearby options advanced beyond the 10-cent level. Naturally the excitement in the cotton market had a very important effect on the security market. The sharp reaction in the cotton market, attaining considerable force at the close, led many to believe, however, that the movement was in the nature of a market coup against the short interest.

In the industrial list there was little activity. Steel shares maintained recent prices, but gradually eased off, reflecting the uncertainty over the maintenance of the regular preferred dividends. Amalgamated Copper moved, as did the balance of the market.

IDLE OVENS PUT IN BLAST.

Frick Coke Company Orders 1,000 More to Be Operated—General Resumption Is Expected.

CONNELLSVILLE, PA., Aug. 23.—(Special.) Coke trade is showing a remarkable increase. During the week the H. C. Frick Coke Company has ordered over 1,000 idle ovens put in blast. Officials of the Frick company are inclined to think there is to be a general resumption in the coke trade, and that the major portion of the idle coke ovens in the Connellsville region will be fired by the first of November. Shipping facilities now are good, and should business begin with a rush railroads will be able to handle the coke with little difficulty.

Ovens at the following plants were put in operation this morning: Southwest No. 2, 70 ovens; Footedale, 100; Kyle, 42; Lemont, No. 1, 100; Central, 100; White, 46; Valley, 51; Calumet, 90; Adelaide, 50; Continental No. 1, 100; Red Stone, 220. In addition to this number, several plants now undergoing repairs will be put in full operation within the next week.

QUEBEC, Aug. 23.—Four persons, Didotor Dion and Wilfored Frazer of Ottowa, and Ovide Laforest and his son, of St. Andre, Kamouraska, have been drowned at Notre Dame Duportage, a watering place, by the upsetting of their boat. Frazer and Dion were employed in the public works department at Ottowa.

Foreign Money Markets.

LONDON, Aug. 23.—Money was in fair demand in the market today and discounts were firm. Trading on the stock exchange generally was affected by the situation at Shanghai in addition to the delay in capturing Port Arthur, though apart from the advance in Americans there were no features. Consols dropped but closed slightly better. Home rails were persistently flat. Americans opened strong in response to New York, remained fairly steady at about parity, but had little animation and closed irregular. Japanese were dull. Imperial Japanese government sixes of 1904 were quoted at 95⅞c. Consols for money, 87⅞c. Consols for account, 87 15-16. Money, 1¾@2 per cent. The rate of discount in the open market for short bills is 2 13-16 per cent. The rate of discount in the open market for three months' bills is 2 13-16@2⅞ per cent. CROPS.

Don't forget that we are still very largely an agricultural country and dependent upon the crops of the soil. This year crops will be spotty and so will railroad earnings; some roads will break all records while others will have a hard time. For the benefit of our customers we are preparing a chart and table showing the roads affected by the spotty condition of the crops. This guide should be in the hands of every investor and speculator, as some stocks will decline while others advance. Everything we issue is free for the asking. Our next wheat letter will be issued Sept. 1st, and it will contain some interesting figures. Call and get our terms for doing business and you will be a customer.

WESTINGHOUSE BUILDING

HOUSE SALES ON THE NORTH SIDE

Three Residences in Eleventh Ward, Allegheny, Sold at Good Figures.

PUSHING STREET CAR LINE

Three residences in the Eleventh ward, Allegheny, have changed hands within the past few days. Through the office of George T. McDonald the old Walker mansion was sold to Edwin L. Peterson of the Bell-Peterson Furniture Company for $15,000. The house is one of the landmarks of the Eleventh ward, having been built 25 years ago and occupied until 1900 by members of the Walker family. It formerly stood on California avenue, but when Walker place was laid out the house was moved back to a point on the west side of Mansion avenue, between California and Hiawatha avenues, and remodeled to make it a modern residence. It is a brick structure of the center hall type with 14 rooms and two bath rooms and is finished in hardwood. The lot is 78x120 feet. The buyer secured the property for a home and has already moved into it.

Through the same agency another of the new houses built last year by the Walker Place Land Company was sold yesterday for $9,000, the buyer being a downtown business man. The residence is a reception hall brick house of 10 rooms and stands on 40x120 feet in Mansion avenue, near California avenue.

The third residence sold is at the southwest corner of California and Florida avenues on 50x160 feet. It formerly belonged to Mrs. James Chalfant, and was sold some time ago to Dr. Harvey E. Ramsey of Allegheny. He in turn has sold the property to an official of the Dollar Savings Fund and Trust Company of Allegheny for $12,000. The house is a reception hall buff brick dwelling containing 10 rooms and was bought for a home.

Seeking Rights of Way.

Movements of real estate agents this week indicate that a street car line may be built back of the North Side suburbs up the Allegheny river, in spite of frequent statements to the contrary. A Fourth avenue broker who controls several properties in that locality was approached Monday by two agents who wished to get a price on a right-of-way through the farms, stating that it was for a street car line. One farm was the McKintosh property, back of Etna. The other was a small farm a short distance back of Millvale. Other rights-of-way in that vicinity, it is said, have been secured. Surveyors have been at work several times within a year near Millvale and Etna, but it has been generally supposed that they were working in the interest of a steam railroad or of the proposed Butler street car line. The direction of the rights-of-way now asked, however, would indicate that the street car line would run from Millvale to the northeast back of Etna and Sharpsburg and along the Aspinwall heights. Such a line, it is expected, would connect with a line coming down from Tarentum. Large purchases of land on Aspinwall heights were supposed to foreshadow a movement of this kind, but no definite plans were ever announced.

Many Houses for the Twenty-Third.

The Twenty-third ward is likely to be the scene of more house building this fall than any other ward in the city, with the possible exception of the Twenty-first. Previous to August 1 not over 50 houses were started in the ward this year. Compared with 300 or more built last year, this showing was poor and was no doubt partly responsible for the projects which have been announced since. A total of over 150 houses is now assured for fall building, some of which have been started during the last three weeks. One hundred of these will be built by E. M. O'Neill under the direction of W. S. Haynes, and 32 more will be built in bunches of from five to ten under the same superintendence. These houses will be built to sell at from $1,600 to $2,500 each, the average being a little over $2,000. Such houses rent readily where they are to be built in Greenfield and Flowers avenue and Lydia street, for from $18 to $20 a month. Last year the Baltimore & Ohio Railroad Company tore down 264 houses in the ward, and at the time the improvements were going on few new houses were completed ready for sale or rent. As a result dozens of the railroad men moved out of the ward, but are now returning and making a good market for the new houses being finished. A typical instance of the sales to these outsiders was the sale of four $1,600 houses this week to men from four different points, McKees Rocks, Youngstown, O., Homestead and the Eleventh ward.

Mt. Lebanon Sale of $10,000.

S. A. Dixon has sold for Lillie K. Dixon to John Farrar 10 acres of the old Potter farm in the Mt. Lebanon district for $10,000, or $1,000 an acre. One-half of the farm, which included 30 acres, was recently sold to John B. Hays for $20,000. This portion, together with the part sold yesterday, is being surveyed preparatory to laying it out in 50x130 foot lots. The property is on the north side of the pike road, a short distance west of the Clearview allotment of the Mt. Lebanon Land and Trust Company, and near the Charleroi street car line.

Margaretta street: The Union Realty Company sold for John R. McGinley to a Pittsburgh business man 5628 Margaretta street, a three-story brick house with stone front and lot 21x120 feet, for $8,000.

Etna: Seidel Bros. sold for the estate of Lydia Jarrett to James Dickson a brick house on lot 60x100 feet on the north side of Freeport street, near Butler street, Etna, for $4,200.

Auburn street: W. L. Stewart sold for Ross S. Porter to John Cumto an improved lot, 23x100 feet, on the south side of Auburn street, Twenty-first ward, for $3,000.

East Pittsburgh: The Real Estate Trust Company sold to Charles W. Hatfield a lot at Center and Grandview avenues, East Pittsburgh, for $1,750; to William J. Holley, two lots in Fourth street, near Airbrake avenue, Wilmerding, for $1,550.

Flowers avenue: Samuel W. Black & Co. sold to George C. Stewart 409 Flowers avenue, Twenty-third ward, a four-room house on 20x80 feet, for $1,600.

Jackson street: Frank R. Stoner sold to Louise S. Nesbitt an improved lot, 48x92 feet, at Jackson and Mellon streets, Nineteenth ward, for $4,250.

Henry W. Armstrong sold for John M. Goehring and Charles W. Dahlinger, to Harris L. Kirsch, a lot on Hilands avenue, Ben Avon borough, 40x130, for $975.

The Pittsburgh bureau of building inspection issued the following permits yesterday: To Jacob Minsinger, two double and one single two-story and attic brick dwellings in Natchez street, near Southern avenue, Thirty-second ward, to cost $15,000; to J. W. Smith, three-story brick dwelling at North Euclid and Hampston avenues, Nineteenth ward, to cost $9,250; to Beltzhoover school district, two-story fireproof school building in Sylvania avenue, Thirty-eighth ward, to cost $24,000; to Mrs. Minnie B. FLOUR MARKET BREAKS; MACKEREL PRICES UP

Produce Trade Feels Effect of Overproduction of Home Grown Stock.

There was a break in flour here yesterday and quotations were reduced 10 cents on both spring and winter patents. The change is in line with the break in wheat Monday and yesterday. It is being discovered, evidently, that reports regarding damage to the wheat crop in the northwest have been exaggerated. Conservative estimates of the coming crop are now being made and the effect on both wheat and flour will likely be general. There was an advance in mackerel prices. Sugar is holding its own. The coffee market is very strong, but without change.

The local produce market is slow. Dealers are feeling the ill-effect of an overproduction of home-grown stock. Farmers are supplying trade to such an extent in the outlying districts that there is much less buying in the Pittsburgh market; otherwise the rural groceryman would be here to do his trading. This condition is usually felt during August, but never so much heretofore. Sweet potatoes are quoted lower. There is a marked decline in peaches. Blackberries were higher yesterday. There were 39 cars of cantaloupes in the yards yesterday and about 45 cars of watermelons. The potato arrivals up to 10 o'clock a. m. amounted to only eight cars. Lima beans are in fair demand. Poultry is wanted more than it was last week.

Eggs hold firm and butter is in good shape. Cheese is still tending upward. There were no quotable changes in hay or grain, but corn and oats look better every day. Straw is moving more freely and clover hay is improving. Millfeed is holding its own.

Wetzel County Is to the Fore With Another Good Oil Well

In the Richwood Run district, Wetzel county, W. Va., Trees, Brast & Co. have a good producer at their No. 5 on the Josephus Morris farm. The first 24 hours after it was drilled into the second Big Injun pay it placed 400 barrels to its credit. This is a better record than was made by any of the wells previously completed in that locality.

In the same district the South Penn Oil Company has drilled its second test on the James Batson farm 95 feet into the Big Injun and has found no oil or gas. In the Pine Grove extension the same company has given its No. 4 on the T. J. Postalwait farm a shot and has increased its production to 175 barrels a day.

In the Little district the South Penn company has drilled its second test on the George Gillingham farm through the Gordon and has a very light showing of oil. In the same district No. 5 on the G. W. Soles farm has been drilled through the Gordon and will make a light well.

South of Mannington, Marion county, the South Penn Oil Company's test on the C. S. Pitzer farm produced 225 barrels the first 24 hours after it was drilled into the Gordon pay, but fell off rapidly and did not produce more than 75 barrels the second 24 hours. In the same district the South Penn has drilled its No. 4 on the B. F. Conway farm into the Gordon and the hole has filled up 1,000 feet with fluid. Nos. 5 and 6 on the same farm are drilling. The South Penn company is also due in the sand at a test on the L. Krouser farm and is drilling a second test on the J. L. Beatty farm. In the same district the Searchlight Oil Company is drilling a test on the T. B. Hebert farm and unknown parties are drilling a test on the H. E. Baker farm.

In the Salem district the South Penn has drilled its second test on the W. T. S. Hutson farm through the Gordon and unless a shot helps will have a very light pumper. In the same district the second test on the Rachel Carpenter farm has been drilled into the top of the Gordon and is not showing any oil or gas.

Near Sullivan station, Doddridge county, Smith & Robinson have drilled their test on the Smith Robinson farm into the stray above the Gordon and have developed a gasser.

In the lower end of the Folsom district, Tyler county, the South Penn Oil Company's No. 1 on the S. Edgell farm has filled up 1,500 feet with fluid from the Big Injun.

In the Meadville district, Tyler county, G. R. McGranahan has drilled his test on the J. A. Edgell farm 60 feet into the Big Injun and has a show for a very light pumper.

On Yellow creek, Calhoun county, the South Penn Oil Company has drilled its No. 12 on the Camden-Sommers farm into the Berea grit and the well produced 78 barrels the first 24 hours. The location of this well is 600 feet northeast of No. 1 on the Silliman farm. The same company's two Maxon sand producers on the R. E. Gardner farm are holding up at 270 barrels a day.

On the Ohio side, northwest of Woodsfield, Monroe county, the Southern Oil Company has drilled its test on the Joseph McFadden heirs' farm into the top of the Keener and has a show for a good producer.

In the Scottown district, Washington county, Tibbens & Withington have completed their test on the M. J. Fulmer farm and have a duster in the Big Injun. In the same district the Carter Oil Company has completed its test on the Frank Patton farm and has a duster in the same formation.

Near Georgetown, Beaver county, Pa., L. R. Davidson has completed No. 8 on the L. R. Davidson farm and has a show for a small pumper. In the Mt. Morris district, Greene county, the Philadelphia Company has completed its test on the Ingraham Cummings farm and has a duster.

UNDER FREE UNLOADING WHEAT GOES DOWN

Market Woke Up Yesterday to Find Bears Arrayed Against It.

[By Associated Press to The Gazette.]

CHICAGO, Aug. 23.—Wheat traders who had profits in previous purchases unloaded freely today. Closing prices compared with last night's figures show a drop of 1⅝c for September, and 1⅜@1¼c for December. Corn is up 1¼c. Oats are off ½c. Provisions vary from 5c gain to 2½c decline.

There appeared to be little in the early market news to cause the weakness indicated by the opening prices. While crop reports were fewer in number, those which came were scarcely more reassuring than those which so recently threw the trade into a state of frenzied excitement. Nevertheless, in spite of possible further damage to crops, the local trade arrayed itself largely on the selling side of the market. September, which started with a loss of ⅝@¾c, at $1 09 to $1 09¼, slumped to $1 07¾, while December, from an initial loss of ⅝c to 1c, at $1 10 to $1 10¼, sold down to $1 08⅝. Had there been concerted short selling the market would undoubtedly have suffered more than it did. The longs who led in the unloading movement, however, were chiefly smaller holders, many of the larger ones having already sold out. At the low points in both deliveries a little better tone developed on buying attributed to the northwest. A report from Manitoba that some of the wheat in that province had been nipped by frost also helped the tone to some extent. The result of the improvement in sentiment was a rally to $1 08½ for September—the closing figure, and in December to $1 10. The latter option closed at $1 09¼@1 09⅜, the final tone displaying much of the weakness prevalent throughout the session. Statistics were against the decline, but failed to attract much attention from the trade. Primary receipts were 796,700 bushels, against 812,600 bushels last year. Clearances of wheat and flour were equal to 120,400 bushels. Minneapolis, Duluth and Chicago reported receipts of 400 cars, as against 475 cars last week, and 342 cars a year ago.

The weather in the corn belt was too cool for the peace of mind of traders today, and values were not permitted to suffer with wheat. Even the later official forecast of rising temperature did not appear to allay all fear of frost. Starting with a firm undertone, but at prices unchanged to ⅛c lower, September advanced from 54c to 54⅛c, to 56⅛c. December under an equal buying pressure, began ⅛c lower to ⅛c higher, at 53c to 53⅛c, and was lifted to 54⅝c before the demand was satisfied. As the session advanced, the market borrowed strength from rumors of heavy purchases in this market for export. Small local receipts—267 cars, against an estimate of 407 cars—were also a factor. Some of the advance was lost through the effect of the government report which showed the past week to have been very favorable to crop growth. The consequent liquidation brought prices back from the high point, September reacting to 55⅝c and December to 54¼c, the final quotations for the day, but the tone in the end was strong.

Oats were active and withstood with but slight loss the bearish influences of heavy receipts and a tremendous increase in local stocks. The material advance in corn was the sustaining power. An initial loss of ⅛c in the September option at 33⅜c to 33⅝c was more than regained through excellent scattered buying. The price went to 34c, reacted to 33½c, and again rallied to the closing figure, 33¾c, with a very steady tone. Local receipts were 501 cars.

Provisions were inclined to firmness, being helped at the start by an advance of 5@10c in the price of hogs, and later by the strength in corn. Trading was chiefly in the way of changing from September to later deliveries. September pork closed 5c up at $11 72½. Lard gained 2½c at $6 87½@6 90. Ribs were down 2½c at $7 32½@7 35. Estimated receipts for tomorrow: Wheat, 77 cars; corn, 98 cars; oats, 210 cars; hogs, 24,000 head.

NEWS FROM THE MINES.

There are 300 men on the pay roll of the Sunnyside mine in the Thunder Mountain country.

The Belmont Mining Company of Wallace, Idaho, is arranging to let a contract for driving a 100-foot tunnel.

The Wilcox mine, near Nelson, B. C., has shipped a car of concentrates to the Hall smelter carrying $56 gold and silver to the ton.

Hodnett & Shiftell of Bossburg, Wash., have bonded and leased the Mountain Goat mine on Jackson Basin, near Sandon, B. C. The purchase price is $10,000.

The Champion Mining Company of the Coeur d'Alenes has let a contract to extend the tunnel on the lead, which is now in 500 feet, an additional 100 feet. The lead is about 200 feet wide, and there is ore in the face carrying 8 per cent copper and two ounces of silver.

The C., K. & N. Mining Company of Colorado Springs will pay its eleventh dividend of $14,319 on August 25.

The Empire Mining Company is putting in a complete plant of mining machinery on its property near Hill City, S. D.

Extensive development will soon be commenced on the San Pedro Gold Mining Company's property in the Sneffels district, near the Camp Bird mine. Charles B. Burt of the firm of Mallory & Burt of New York is now in Ouray making arrangements for the patenting of 22 claims and two mill sites. At present work is being done in the main development tunnel which is in 800 feet. Within the next few hundred feet it is expected they will intersect valuable ore bodies. This development tunnel when completed will be 2,500 feet into the mountain and 1,500 feet below the crest. Several veins known to carry large bodies of high grade ore will have been intersected in driving the tunnel to its destination. It is the intention of this company to at once put in machinery and begin work, with the intention of completing the work as soon as possible.

The El Paso Company, whose territory lies on Beacon hill, Cripple Creek, is making a splendid record during this month. One carload of ore alone that was shipped this month from the property netted sufficient money to pay the dividend and as that amounts to $24,500, it is readily seen that the ore was of high grade.

The C., K. & N., a near neighbor, is sending out an average of two carloads of ore a day, returning values of $70 to the ton, while the Old Gold, another neighbor, sent out two carloads which will return values of four ounces to the ton.

Advices from Tonopah are that a settlement has been effected out of court in the case of John McKane et al. vs. Uri B. Curtis, W. R. Ridge, C. D. Taylor, George E. McClelland and H. L. Taylor, The Jumbo Mining Company of Goldfield, Nev.; the Nye & Ormsby County bank, and the Western Ore Purchasing Company of Reno. The litigation was one over the operation of the Jumbo property by the leases.

JONES ESTATE CASE APPEALED

Fidelity Title and Trust Company Not Satisfied With Orphans' Court Decision.

NO ACTION ON COURT RULES

An appeal was taken to the supreme court yesterday by the Fidelity Title and Trust Company, guardian of Thomas Mifflin Jones, III., from the opinion of orphans' court in the estate of the late Thomas Mifflin Jones, Jr. This is the case in which Mrs. Mary Brown Speer, at one time the wife of the decedent, was allowed her claim of one-third of the large estate left by her former husband. Her claim was based on a provision of his will by which he left her, as his wife, the share she asked for. The orphans' court was divided on the question, Judges Miller and Over deciding in favor of the claimant and Judge Hawkins writing a dissenting opinion, holding that the husband meant in his will that she should inherit as his wife and not in any other capacity. Subsequent to the making of the will and before Jones' death, the wife was divorced and has since remarried. The decision of the majority of the orphans' court prevailed.

Three petitions in bankruptcy were filed. Carey Kent, a farmer of Lundys Lane, Erie county, gives his liabilities as $647 50, with assets of $185. Anton E. Papsch of Homestead had an involuntary petition presented against him by Albert L. Brahm, H. Obernauer & Co. and Weller Bros. of this city. Claims amounting to $818 are presented. Papsch confessed judgment to two notes amounting to $556 60. He says the holders of these notes are about to issue execution and sell his property.

A like petition was filed against Howell Q. Hines of Stoneboro by Robert P. Cann, Frank and Harry White of the same place. The petition alleges that Hines owes his creditors $1 562, due on notes and for wages.

Saloons Must Close Early.

The petition presented in quarter sessions court in behalf of the liquor dealers of Braddock, asking that they be allowed to remain open one hour and a quarter longer for one week on account of a fair being held at that place, was withdrawn yesterday. The petition was first presented to Judge Collier and later to Judge Rodgers, and both informed the petitioners' attorney that the rules could not be amended without a full bench of all courts. As this is impossible at present, and as the fair began Monday night, the petition was withdrawn. Attorney Joseph Mayhugh represented the dealers.

A bill in equity was filed by John B. Lovatt against M. B. Johnson, executor of the estate of his brother, C. B. Lovatt, deceased, in which he asks an accounting in a brick business conducted by the brothers. It is alleged no accounting has been made since the brother's death nor during his lifetime.

In the matter of J. C. Hill Sons against Lawrence Novak, interpleaded with Joseph Beresneviez, the defendants have filed exceptions to the sale of property by the sheriff. They say that the judgment was obtained fraudulently, as the plaintiff agreed before a hearing in an alderman's office that no judgment would be obtained, and that Novak could pay the $39 due the plaintiff in payments. Of this, it is alleged, $15 was paid and $24 remains due. It is alleged no execution was issued on personal property, and the return of the alderman's execution, marked "No goods," was erroneous, as Novak had a grocery and meat business on the premises sold and Beresneviez personal effects were worth $500 or $600. It is alleged no constable called or made any levy. The real estate which was sold to B. C. Thompson of Beaver county for $70 was worth $3,000 and unincumbered, it is alleged.

Lost His Wife's Love.

Joseph A. Steel has entered suit against Augustus Northington for $10,000 damages, the action being based on the alleged alienation of the affections of Steel's wife, Grace, by the defendant. The alleged offense is said to have had its inception on May 30, 1904. A capias was issued for the defendant's arrest, bail being fixed at $800. Attorney S. S. Robertson represents Steel.

Thomas McClellan, for himself and minor son, John, has entered suit against the Adams Express Company for damages aggregating $12,000. It is alleged that on March 28 last a wagon of the company bore down upon a number of children playing in Mulberry alley, in McKeesport, and ran over the son. On account of the section being crowded, it is alleged, the children occupied the street as a playground.

In the divorce suit of John H. Smith against Johanna Smith, a rule has been granted on Samuel J. McKim, Esq., the commissioner in the case, to show cause why he should not return to court the notes in the testimony taken in the case. The rule was made on the petition of the libellant, who says the last testimony was taken in June last, and that the testimony should be a part of the court record by this time.

In the matter of L. Walther against Alexander Doritty, a rule has been granted on the plaintiff to show cause why judgment should not be opened. The petition of the defendant sets forth that he was entrusted with a St. Bernard dog named Mountaineer by the plaintiff to keep at his home in Plum township. The defendant says he gave a judgment for $100 for security of the dog, but he never considered himself the owner of the dog. The judgment was entered in the note. The defendant says the dog has the mange.

The following executions were issued: Frank J. Kuhn vs. Thomas Tuskinski, $200; George B. Hill & Co. vs. Arthur Davis, $17,665 64; Charles G. Rogers vs. Robert Swan et al., $208 05; Jacob Kresicher vs. A. Y. Burkholder & Co., $113 29; the Grove Company vs. same, $46 27; the Breisch-Williams Company vs. same, $57 65; Henry Heide vs. same, $84 54; C. Williams vs. Eva E. Davis et al., $75.

CAUGHT BY A CAVE-IN.

Ditch Digger Is Rescued from Death by an Alderman and Two Officers.

Michael McDonough of 36 Compromise street, Allegheny, was caught by a cave-in while digging a ditch in front of Alderman Brinker's office yesterday morning and was almost suffocated before he was rescued. His head was cut in several places by falling stones.

The ditch was 10 feet deep and McDonough's body was entirely covered with dirt and stones. Alderman Brinker and his constable, John Hohman, and Special Officer James H. Rea, got picks and shovels and after hard work rescued McDonough.

After having his injuries dressed McDonough was able to go to work in the ditch again.

Atlantic City's Special Features.

The one big and interesting feature at Atlantic City is the now famous Johnstown flood. It is, indeed, a marvelous spectacle, stupendous and thrilling, once seen never forgotten. The cost of giving an adequate representation of this immense disaster is tremendous, but Mr. Randolph McNutt has spared no expense in making the reproduction as true to life as possible. The thrilling ride to alarm the sleeping people, the oncoming rush of the mighty and resistless wall of water, the hairbreadth escapes and all the sensational features are reproduced in a remarkable and truly artistic manner.

During the last four seasons that this wonderful scenic-electric marvel has been in existence at Buffalo and Coney Island over 3,000,000 patrons have had the pleasure of witnessing it.

The burtsing of the immense dam, high up in the foothills of the Alleghenies, turned loose upon the sleeping villages in the valleys below, an immense volume of water that picked up railroad trains, boulders and houses, carrying them along on its crest like so much chaff, sweeping through the narrow valley at the height of 18 feet, and destroying lives, villages and whole townships. The horror of the situation was beyond the power of words to express. In point of damage done to property, awful loss of life, as well as in heroic deeds, the event was one of the most horrible and colossal in the history of the entire world.

No one should fail to see this grand electric production, which appeals particularly to the women and children, as it has a distinct educational value.

The building in which this production is to be seen is new from roof to basement, and located, as it is, opposite the steel pier, is the most convenient of all Atlantic City's attractions to the majority of visitors.

DWARF MONKEYS ON WIRES FAD OF SOCIETY WOMEN

Wiggling and Squirming Pets of Fashionable Set Make Their Debut at Sherry's and Give Promise of Popularity.

[By Private Wire to The Gazette.]

NEW YORK, Aug. 23.—Fuzzy dwarf monkeys on wires are the latest fad among the women of the fashionable set. These simian pets made their debut today at Sherry's where they were introduced to society at luncheon by the Countess Festetics and Mrs. Hugh Tevis. Unlike the kind that Harry Lehr entertained at a Newport dinner party last year, they can be carried everywhere, and today accompanied the countess and Mrs. Tevis into the restaurant.

They wiggled and squirmed like some giant insects, for they hung from elastic threads attached to the women's fingers. Every movement by these leaders of fashion made the monkeys dance and bob about, evidently to the women's delight, for they seemed as much amused with their chenile pets as small children might be with the wriggly spiders sold by the fakirs in Fourteenth street. In fact, the new bidders for fame, which are about four inches high, bore a close resemblance to these street toys and danced with the agility of grasshoppers.

With fashionable sponsors like the Countess Festetics and Mrs. Hugh Tevis, these fuzzy monkeys are undoubtedly destined to become immensely popular as playthings for society women, and it would surprise but few to see them invade Newport in numbers before the season there ends.

The Countess Festetics was Miss Ella Haggin and is a daughter of Louis T. Haggin, and granddaughter of James Ben Ali Haggin, the San Francisco and New York millionaire. She was married to Count Sigismund Festetics, grand chamberlain of the imperial court of Vienna, in 1892. For four years she and her titled husband cruised among the cannibal islands. These years of yachting among Pacific typhoons made a shipwreck of their married life and caused her to bring suit for divorce. She is spending the summer with her parents at their country home at Gloster, N. J.

Mrs. Tevis, the beautiful widow of the late Hugh Tevis, from whom she inherited several millions, was Miss Cornelia Baxter of Denver. Her husband died in Yokohama two months after their marriage. The earl of Rosslyn was quite devoted to her at one time and it was thought that she would marry him.

RUST CONTINUES TO ATTACK WHEAT

Harvesting of the Spring Crop Is Nearly Completed in the Northwest.

CORN PROMISES GOOD YIELD

[By Associated Press to The Gazette.]

WASHINGTON, Aug. 23.—The weekly crop report issued by the weather bureau is as follows:

The drought prevailing in portions of the central valleys in the previous week has been relieved by abundant rains, but drought continues in Central and Western Tennessee and is beginning to be felt in the middle gulf states and over a considerable part of Texas. The central and northern Rocky mountain districts and the north Pacific coast region are also suffering from drought, the prevalence of forest fires being reported from Idaho and Montana. The latter part of the week was too cool in the lake region and unseasonably low temperatures occurred in the northern Rocky mountain districts and upper Missouri valley on the 21st and 22d, but elsewhere east of the Rocky mountains the temperature has been favorable.

The principal corn states have experienced a week of favorable conditions, abundant rains having fallen throughout the corn belt, except in portions of Ohio and Nebraska. Corn has made satisfactory progress in the states of the Missouri valley and is generally improved in the Central Mississippi and Ohio valleys, although a considerable part of the crop in the Ohio valley has been injured beyond recovery. In the middle Atlantic states and lower Missouri valley early corn is now practically matured.

Spring wheat harvest is generally finished, except in North Dakota and Northern Minnesota, where rust is continuing to cause great injury. Rains in North Dakota in the latter part of the week interrupted harvesting. Harvesting is also nearly finished on the north Pacific coast.

The general outlook for cotton is somewhat improved as compared with the conditions reported the previous week, although shedding continues in every state and rust is prevalent in the central and eastern districts. The unfavorable effects of shedding and rust, however, are less pronounced than were reported last week. In Texas the weather conditions were favorable, but the crop continued to deteriorate as a result of rust and shedding and damage by insects. In this state injury by boll worms is decreasing, but the boll weevils continued very destructive in southwestern, central, eastern and east divisions, having caused entire absence of bloom in many localities. Picking is quite general in Texas, except in the north portion, and is in progress in the southern portions of the central and eastern districts of the cotton belt.

In the middle Atlantic states and New England tobacco has made favorable progress, cutting being well advanced. While the crop has been shortened by drought in the Ohio valley, late rains have improved the outlook in that section. Tobacco is making good growth in Wisconsin, but is about two weeks late.

Reports indicate a general scarcity of apples in the greater part of the middle Atlantic states and central valleys, but in New England, New York and the lake region the outlook is more favorable, a good crop being promised in the two last mentioned sections.

The reports respecting potatoes indicate that a good crop is generally promised in the more important potato-producing states. Drought has impaired the outlook in portions of the Ohio valley, however, and rot and blight are increasing in Pennsylvania.

Throughout the central valleys and middle Atlantic states the soil is in fine condition for fall plowing, which work is in general progress and is well advanced in some places.

GOVERNMENT TO ISSUE NEW MEDALS OF HONOR

WASHINGTON, Aug. 23.—The war department today put into effect an act passed at the last session of congress, providing for the issue of new medals of honor to those who now hold the old medals, which are to be destroyed. This was done by the issue of a circular calling the attention of the public to that act and requesting the holders of medals of honor issued under the acts of 1862 and 1863 to forward the medals and bowknots by registered mail to the military secretary, who will replace them by medals and rosettes of new design.

BLOWS STRUCK IN THE MEETING

Philip Weinseimer Denounced and Crisis Reached Among the Plumbers.

WORK RESUMED IN NEW YORK

[By Private Wire to The Gazette.]

NEW YORK, Aug. 23.—An unusual crisis came in the building trades situation today when 50 members of the Journeymen Plumbers and Gas Fitters' union, of which Philip Weinseimer is a business agent, became angered, left the meeting which was held at Mannerchor hall, after the exchange of several blows, and applied for work at the Chatsworth apartment building, Riverside drive and Seventy-second street.

Their decision to leave the meeting came after a stormy controversy. Weinseimer was presiding and rebuked some of the plumbers for continuing at work at the Chatsworth after they had been ordered on strike. One of the men censured arose and angrily denounced Weinseimer. The man was put out of the meeting. The hall immediately seethed with excitement and 50 others left, one man shouting at Weinseimer:

"We will have no more of this Sam Parks business from you."

The trouble at Mannerchor hall caused great satisfaction at the rooms of the Building Trades Employers' association. Mr. Harding of the employers' press committee, when he heard of it, predicted that the backbone of the Building Trades Alliance was broken, and added that at the end of the week all jobs in the city would have enough men to be completed.

Work on the "marble twins," the houses of George W. Vanderbilt and Mrs. W. J. Sloane, at Fifth avenue and Fifty-second street, was started again today.

BURHAM IS DEAD AT LAST.

Allegheny's Famous Tramp Dog Was the Victim of a Poisoner.

Burham, the tramp dog of the Allegheny Diamond square, who escaped death from the bullets and mace of a North Side partolman and from being run over by an automobile and a mail wagon, is dead at last. He was found early yesterday morning at the door of Fred Beuchler's saloon in West Diamond street. Some enemy had given him poison during the night and the poor fellow yielded up the ghost at the door of his friend who had fed him every day for the past six months.

Alderman Abernathey, who bought the dog a collar and a license last week, says he will prosecute the person who poisoned Burham, if he can find out who did it.

BRITISH SUBJECTS DEMAND DAMAGES OF UNITED STATES

Claims Filed for Imprisonment During Revolt in Honolulu Seven Years Ago—Court to Settle Matter.

[Associated Press Cable to The Gazette.]

HONOLULU, Aug. 23.—It is stated that an international tribunal is to be established by Great Britain and the United States for the purpose of settling, among other things, the claims of a number of British subjects here who were imprisoned as revolutionists after the rebellion of 1895. Over 20 claimants have placed their claims for damages in the hands of the British consul here.

Gov. Carter took the matter up while he was in Washington, and was informed that a tribunal would be formed for the purpose of making settlements. It is now seven years since testimony was taken in the matter. Most of the claimants were kept in jail for some weeks for fear of a revolt.
